EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	9.27
Delhi Public School, Indore	Class XII (CBSE)	2020	90.80%
Delhi Public School, Indore	Class X (CBSE)	2018	83.40%

SUMMARY

t is the interval in which change happens: the space where design does its work.

Industrial designer trained in leather goods and footwear design (B.Des, FDDI), now specialising in user research, prototyping, and end-to-end product development (M.Des Product Design, IIT Hyderabad). Experience spans consumer footwear and accessories design, leather manufacturing, and lifestyle products, with a focus on sustainable, ergonomic, user-centric design, moving products deliberately and measurably from how they are to how they should be.

PROFESSIONAL EXPERIENCE

Product Design Intern (Summer Trainee) · BioSimilar Sciences India Pvt. Ltd.

May 2026 - July 2026

- Shaped the digital experience strategy for OcyonBio, a cGMP CDMO partnered with Biosimilar Sciences Ltd., defining its digital personality and brand voice for a 2030-forward market position.
- Conducted user research and designed the UX architecture for OcyonBio's AI-driven commercial website and intranet platforms, translating strategic positioning into a coherent, scalable interface system.
- Developed design concepts from low- to high-fidelity, refining functional prototypes through successive rounds of user feedback and evaluation.
- Owned and tracked the end-to-end design process over a 3-month cycle, facilitating recurring design reviews with cross-functional teams.

Footwear & Accessories Design Intern · Bewakoof Brands Pvt. Ltd.

February 2024 - July 2024

- Forecasted seasonal trends and built theme, colour palette, and design direction for complete footwear and accessories categories.
- Created production-ready tech packs and range presentations with pitch decks, carrying designs from concept to approval.
- Reviewed and approved design translations (colour cuttings, print strike-offs, styling, fit, and trims) across sampling, reducing correction cycles.

Design Research & Development Intern · Bhartiya International Limited

June 2023 - August 2023

- Researched the design language of international buyer brands and translated findings into sampling briefs for the production floor.
- Managed sample development and correction cycles end-to-end, coordinating between design, production, and buyer requirements.
- Documented samples, concepts, and finished products through studio photography for buyer presentations and internal records.

Summer Intern, Leather Production · Tata International Limited

June 2022 - July 2022

- Studied the full leather production process from raw material to finished goods across production units.
- Supported quality control monitoring and safety/compliance audits on the production line.
- Contributed to sustainability initiatives targeting waste reduction and adoption of eco-friendly materials and

processes.

POSITIONS OF RESPONSIBILITY

Exhibition Head, HCI Conference 2026 · *IIT Hyderabad Convention Centre*

- Leading the end-to-end visual and spatial narrative of the conference exhibition for international delegates, from concept to execution of large-scale installations bridging human-computer interaction and physical space.
- Designing a cohesive signage system and environmental graphics for seamless wayfinding and a premium attendee experience.

Installation Coordinator, Ayaam 2026 (Annual Design Fest) · *Department of Design, IIT Hyderabad*

- Led end-to-end execution of physical installations, from ideation and spatial planning to material sourcing and hands-on assembly, ensuring the aesthetic and structural integrity of the fest's key visual landmarks.
- Designed and implemented fest-wide signage, improving navigation and visitor engagement.

Design Team Member, Inter IIT Tech Meet · *IIT Hyderabad Contingent*

- Designed official merchandise and high-fidelity game design assets, ensuring a cohesive visual identity across digital and physical touchpoints.
- Compiled technical data into polished, high-impact presentations supporting the professional delivery of the team's solutions.

SKILLS

Tools: Figma, Illustrator, Photoshop, Blender, Clo3D, 3dsMax, AutoCAD, Procreate, SolidWorks

Methods: User research, Prototyping (lo-fi to functional), Industrial sketching & digital illustration, Form study, Tech pack development, Trend forecasting & competitive research, Sampling & production coordination, Exhibition & spatial design

Languages: English, Hindi, Marathi

COMMUNITY SERVICE

- Animal Rehabilitation & Protection Front, Zoo Volunteer (2020-present): conservation awareness, animal rescue and fostering.
- Motopaws, Community Volunteer (2022-present): fitted reflective collars on street dogs and cats to prevent roadkill; promoted rescue adoption.
