EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	8.54
Sri Adi Chunchanagiri Independent PU College	Class XII (KSEAB)	2021	94.20%
Bharatiya Vidya Bhavan	Class X (CBSE)	2019	94.60%

WORK EXPERIENCE

IIT Madras, Wadhwani School of Data Science and AI | Summer Intern

- Performed EDA and profiling on NVIDIA Nemotron Personas & NLP datasets, analyzing distributions, patterns & data quality.

- Engineered semantic matching using TF-IDF, cosine similarity, and Hungarian algorithm to align personas with conversations.

- Created a ~9K QA benchmark and evaluated 12 LLMs for comparative Indian mental health perspective analysis.

Fresher Profiles Pvt Ltd | Mobile Developer Intern

- Developed cross-platform Flutter apps using Dart, reusable widgets, responsive UI, navigation, forms, and Provider.

- Integrated REST APIs, Firebase, Supabase, authentication, push notifications, and offline data persistence.

- Implemented biometric authentication, Git workflows, Agile development, API integration, and Android/iOS debugging.

PROJECTS

Electrical Transformer Diagnostic Intelligence *(Ongoing M.Tech Project)*

- Built diagnostic pipeline using Pandas, NumPy, and scikit-learn to preprocess and engineer transformer test-bench data.

- Developed XGBoost fault classification, Isolation Forest anomaly detection & SHAP explainability for transformer assessment.

- Integrated IS/IEC rule validation with ML predictions for diagnostics, health scores, and repair recommendations.

Secure Enterprise Knowledge Retrieval System

- Built RAG chatbot using Streamlit, FastAPI, ChromaDB, SentenceTransformers, and LLaMA 3 via Ollama for responses.

- Implemented RBAC with role-filtered vector retrieval, session persistence, and metadata-based access controls for data.

- Developed query routing with SQL Agent and DuckDB fallback RAG for structured and unstructured data retrieval.

Arecanut Price Forecasting, Smart Storage & Selling Advisory

- Built multimodal pipeline integrating market, weather & news data; engineered lag, moving average, volatility & sentiment.

- Developed LSTM with 7-day sliding windows and engineered features for short and medium-term price forecasting.

- Built decision engine integrating price forecasts, VADER sentiment, drying suitability & storage costs for sell/store decisions.

SKILLS

Programming & Data - Python, SQL, NumPy, Pandas, Scikit-learn, Statistics, Data Analysis, Data Structures & Algorithms

AI & Machine Learning - Machine Learning, Deep Learning, NLP, Generative AI, Agentic AI, LLMs, Transformers, LangChain, TensorFlow, PyTorch, XGBoost, Isolation Forest, SHAP, RAG, Semantic Search, SentenceTransformers, Embeddings

Development & Tools - FastAPI, Django, Flask, Flutter, PostgreSQL, MongoDB, Supabase, Firebase, Streamlit, Ollama, Git

RELEVANT COURSES

Machine Learning and its Applications, Text Analytics for Business, Data Science and Visualization, Big Data Analytics, Database Management Systems, NoSQL Database, Design and Analysis of Algorithms, Data Structures and Applications, Cloud Computing

JAPAN PROJECTS & ENGAGEMENTS

Learn in Bharat 2025 Ideathon Workshop

- Collaborated with Japanese peers to explore challenges in rural India across agriculture, education, and rural livelihoods.

- Co-developed an innovative milk distribution solution to improve accessibility and efficiency in rural communities.

Tongali Project

- Collaborated with Japanese startup founders to adapt entrepreneurial ideas for India and develop business solutions.

- Secured 2nd Prize at the Final Startup Pitch Session by presenting a business concept to an expert panel.

Kyoto University Deeptech Entrepreneurship Spirits Program 2026

- Collaborated with Kyoto University students to develop innovative solutions for urban challenges in India.

- Developed ideas to address traffic congestion using Japanese traffic management techniques in the Indian context.

POSITIONS OF RESPONSIBILITY

Head - Placement Coordinator | Office of Career Services, IIT Hyderabad *(2026-27)*

- Led placement and internship operations, driving company outreach, pitching, assessments, and recruitment coordination.

- Managed other coordinators and supported OCS initiatives including Career Fair, Japan Career Day, and other key events.

Head - Website | Diesta *(Inter-Departmental Sports & Cultural Fest)*, IIT Hyderabad *(2026)*

- Led development of the Diesta 2026 website using React, Vite, and Tailwind CSS for 50+ events and sports competitions.

- Managed backend operations and continuous updates for schedules, leaderboards, and results, serving 4,000+ students.

Coordinator - LinkedIn & Website | Department of Entrepreneurship & Management, IIT Hyderabad *(2025-26)*

- Rebuilt the department website from scratch, optimizing UI, backend performance, speed, and continuous website updates.

- Managed the department's LinkedIn presence, creating content and campaigns to strengthen outreach and digital visibility.

HOBBIES & INTERESTS

Skating, Chess, Fitness Training, Travelling, Vlogging, Photography, Collecting Vintage Machinery Parts, Civic Engagement
