EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	8.23
Central Model School, Barrackpore	Class XII (Central Board of Secondary Education)	2017	67.40%
W.W.A Cossipore English School	Class X (Indian Certificate of Secondary Education)	2015	84.20%

PROFILE & CONTACT DETAILS

Product Designer | UX & Interaction Design

anuran.framer.website · md25mdes14014@iith.ac.in · +91 89618 87256

Product Designer with experience designing **user-centred digital products across fintech, SaaS, and enterprise platforms**. Skilled in translating complex requirements into intuitive **user flows, interaction patterns, prototypes, and high-fidelity interfaces**, with a strong foundation in user research and interaction design. Currently pursuing a **Master of Design in Interaction Design at IIT Hyderabad**, with a focus on digital systems, physical interactions, and data storytelling.

EXPERIENCE

Product/UX Design Intern -- DISHA, IIT Hyderabad

- **Redesigned the Faculty Portal IA**, identifying **5 structural issues** through workflow mapping and prioritising improvements using an Impact-Effort framework.
- **Conducted 9+ faculty & stakeholder interviews**, translating user pain points into UX principles, user flows, and a consolidated research synthesis.
- **Designed the HR & Administration module** and led coordination across **faculty, FIC, developers, and design interns** to align research, design, and implementation.

Product Design Consultant -- Sconto

- Redesigned the **student and parent onboarding experience**, including KYC and photo verification, resulting in **30% fewer user drop-offs**.
- Reworked key product and website experiences to simplify interactions across Sconto's **digital financial-services ecosystem**.
- Translated complex onboarding requirements into clearer **user flows and interface experiences** focused on reducing friction.

Founding Product Designer -- Enegma

- Designed **scalable SaaS dashboards and workflows** using Ant Design components, improving usability for enterprise users.
- Redefined core **user flows and information structures** to make complex procurement workflows easier to navigate.
- Conceptualised and developed the company's website in Framer, creating a **cohesive digital experience** across brand and product touchpoints.

Product Design Consultant -- SigNoz

- Partnered with the Founding Designer to develop a **light version of the SaaS product**, improving accessibility and scalability.
- Redesigned the product's **colour and nomenclature systems** using Figma Variables, supporting light/dark modes and future theme scalability.

- Contributed to simplifying the product experience while maintaining consistency across the design system.

UI/UX Designer -- Studio Carbon

- Revamped the UX of a **500+ page international educational platform**, improving navigation and overall user experience.
- Conducted research into **physical interactions** for Hyperlab products and developed standardised interaction guidelines across the product line.
- Led the redesign and development of **Newtrace's website** using Webflow, contributing to a successful **$5M+ funding round**.

RECOGNITION & AWARDS

Winner of Visual Informational Identity Program - D' Source Corona Design Challenge, IIT Bombay

Winner of Typographic Poster - D' Source Corona Design Challenge, IIT Bombay

International Typographic Poster Competition Winner - TypoDay 2021, IDC School of Design (IDC), IIT Bombay

RELEVANT COURSES & SCHOLASTIC ACHIEVEMENTS

"**Innovation by Design**" Course by IIT Bombay and NPTEL

"**Understanding Incubation and Entrepreneurship**" Course by IIT Bombay and NPTEL

SKILLS

Product & UX:

User Research, User-Centred Design, Design Thinking, Information Architecture, User Flows, Wireframing, Prototyping, Interaction Design, Product Design, Data Visualisation, Visual Design

Collaboration:

Communication, Team Collaboration, Design Leadership, Agile Methodologies, Adaptability

Tools:

Figma, FigJam, Miro, Framer, Webflow, Adobe Creative Cloud, Notion, LottieFiles, Google Workspace, Microsoft Office, ChatGPT, Gemini, Claude, Midjourney, Cursor, Replit, Lovable
