EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	8.21
New Era Public School	Class XII (CBSE)	2018	82.80%
New Era Public School	Class X (CBSE)	2020	73.00%

WORK EXPERIENCE

S4PMIA - aayushdoesfinanxe.com | Technical Consultant, part-time

Security review, performance tuning and hosting for a financial-modelling firm's live Next.js site on Vercel.

- Found an **unauthenticated-RCE advisory (GHSA-2xp9-vwfh-vxw4)** exposed through the site's reachable Next.js image optimiser in a dependency, secrets and SAST audit; recommended disabling it and specified **CSP and security headers**.
- Cut **FCP from 500 to 138 ms, LCP from 757 to 465 ms and image weight by 86%** in a pre-launch pass.
- Established a **924 req/s, p95 165 ms, zero-error baseline at 100 virtual users** on a local production build with **7 Grafana k6 scenarios**; throughput knee at 300 VUs.

Disha - Institute-Wide Resource Management Platform | Software Engineering Intern, IIT Hyderabad

*One of **2 students** selected for the build; owned Dynamic Forms, the institute's replacement for **Google Forms** and the more complex of the two student modules; shipped **71 merged PRs in 3 months**. (TypeScript, Node.js, React)*

- Closed a **race condition that let a 1,501st student register for a 1,500-seat mess** by moving browser-only caps to **atomic server-side per-option capacity**, with one submission per user to block resubmission.
- Eliminated **re-entry of name, employee ID, department and DOB on every configured form** via admin-set HR-profile autofill that detects array-nested fields, no per-form code.

Ubilang | Backend Developer Intern, Remote

Built and optimised RESTful Django APIs, integrating third-party services and cloud-hosted pipelines on Google Cloud.

SELECTED PROJECTS

Disha - Notification & Workflow Reliability | Capstone Project, IIT Hyderabad

*Sole owner of Dynamic Forms since the internship; **24 more merged PRs** across notification, workflow, template and configuration services, for **95 merged PRs across 7 services (~18.8k lines added)** in total. (Node.js, RabbitMQ, MongoDB)*

- Prevented **silent message loss** with RabbitMQ backoff, retries and dead-lettering, acking only once a failed delivery is durably captured.

TransactiWar - Attack-and-Defend Security Competition, 2nd Place | CS6903 Network Security, team of 7

*On a simulated real-world money-transfer app, found **every vulnerability the team reported** and authored **108 of 228 commits (47%)** and 3 pre-deployment audits. (PHP, MySQL)*

- Had **18 of 19 rival reports against the app rejected in final scoring, including all 6 rated HIGH**, after hardening it with origin-pinned CSRF tokens, prepared statements, input sanitisation, output encoding and SameSite=Strict sessions.

RoseMac - Native macOS Mod Manager | Personal Project, github.com/bakisama/rosemac

- Removed **manual file placement for every mod** by parsing .fantome and ZIP archives with live game-version detection.

MedFedAlignPro - Federated Domain Generalisation | CS6450 Visual Computing

Extended CVPR 2025 FedAlign to referable diabetic-retinopathy screening. (PyTorch)

- Benchmarked held-out-domain accuracy and macro-F1 against **6 federated baselines** (FedAvg, FedProx, FedSR, FedIIR, FedADG, CCST).

TECHNICAL SKILLS

- **Security:** Threat Modelling, Web Vulnerability Assessment, CSRF/SQLi/XSS Defence, CSP, TLS, Diffie-Hellman, AES, MACs, Cryptanalysis, SAST, Secret Scanning (gitleaks), Dependency/CVE Auditing, IP Firewalling, Honeypots, ptrace, Wireshark
- **Languages:** Python, TypeScript, JavaScript, Rust, C++, Java, SQL, PHP
- **Backend & Web:** Node.js, Next.js, Django, React, Tauri, REST APIs, Microservices, RabbitMQ, MongoDB, MySQL, SQLite
- **Infrastructure & Testing:** Docker, Docker Compose, Apache, Vercel, Google Cloud, Grafana k6, GitHub Actions, Git, Linux

LEADERSHIP & ACHIEVEMENTS

- **299/300** across 3 CS6160 Cryptology assignments.
- **1 of 2 elected Class Representatives** for CSE from 100+ M.Tech students (2025-26); member of **Lambda**, IITH's 50+ member software development club.
- **Taught an adult to read and write Hindi** under a Jamia Millia Islamia literacy undertaking; mentored beginners to their first merged changes in GirlScript Winter of Contributing 2021.
