EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2028	7.73
MAHARISHI INT. RES.SCHOOL SRIPERUMBUDUR	Class XII (CBSE)	2023	91.40%
BHARANI VIDHYALAYA	Class X (CBSE)	2021	92.60%

SCHOLASTIC ACHIEVEMENTS

Secured **State Rank 387** and **International Rank 3999** in the **Science Olympiad Foundation (SOF) International Mathematics Olympiad (Class 1)**.

Secured **International Rank 1571** in the **Science Olympiad Foundation (SOF) International English Olympiad (Class 1)**.

Completed all **8 Dakshina Bharat Hindi Prachar Sabha** examinations and earned a **Hindi Diploma** by **Class 6**.

POSITIONS OF RESPONSIBILITY

Overall Coordinator, **Alumni Cell**, IIT Hyderabad *(2026-27)*

Head - Public Relations & Networking, **Media Council**, IIT Hyderabad *(2026-27)*

SKILLS

Programming Languages: C, C++, Python

Core CS: Data Structures & Algorithms, Object-Oriented Programming, Basic Algorithms

Mathematics: Probability, Statistics, Linear Algebra, Differential Equations

Electronics: Analog Electronics, Digital Circuits, Basic Electric Circuits

Tools: Git, Fusion 360, Solid Edge, Microsoft Office (Excel, PowerPoint)

RELEVANT COURSES

Data Structures & Applications (DSA)

Introduction to Programming (ITP)

Digital Circuits

Analog Electronics

Basic Electric Circuits

Computational Physics

Artificial Intelligence

Introduction to Probability

Introduction to Statistics

PROJECTS

AI Production Copilot

An AI copilot that helps manufacturing companies reduce production delays and improve operational efficiency.

- Designed a workflow to identify production bottlenecks, delayed orders, and inventory issues using operational data.
- Proposed AI-driven recommendations to prioritize tasks, optimize resource allocation, and reduce delivery delays.

AI Fit Intelligence for Apparel

An AI-powered sizing assistant that predicts clothing measurements from basic user attributes.

- Designed a sizing prediction system using inputs such as height, weight, age, and body profile to recommend accurate apparel sizes.
- Proposed leveraging historical tailoring measurement data to improve prediction accuracy and reduce size-related returns.

Community Recommendation Engine

A personalized recommendation engine for closed communities such as university campuses.

- Designed a recommendation system that learns from community purchase patterns to suggest products users are most likely to need.
- Explored collaborative filtering and user behavior analysis to improve recommendation relevance.

EXTRACURRICULAR

Athletics (100 m, 200 m & 400m Sprinter), IIT Hyderabad -Won multiple medals in College level tournament and in an unofficial state level tournament(AIRO 2026)

Won in Multiple **Carrom** District level Tournament and a **State carrom** player
