EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	7.66
Sri vivekananda junior college	Class XII (Intermediate education)	2023	97.10%
ST Augustine English Medium High school	Class X (Secondary education)	2021	98.33%

WORK EXPERIENCE

MLE Summer Intern - Creative Intelligence | Adobe Systems India Pvt. Ltd.

- **Designed** a **9-label taxonomy** for ad understanding with clear definitions and conflict-resolution rules.
- **Built** a **Python shot-level classification pipeline** using **PySceneDetect, FFmpeg, and LLMs** for temporal ad analysis.
- **Championed** comparative analysis of **3 LLMs**--**GPT-4o-mini, GPT-5, & Gemini 2.5 Flash** to identify the best approach.
- **Annotated a 50-video golden dataset,** evaluated with **6 metrics**, using **spherical K-Means & LLM-as-a-Judge framework.**

Image Deblurring with Restormer & Data Augmentation: (Dr.Ashesh)

- **Studied** the impact of data augmentation on image deblurring using **Restormer** on the GoPro dataset.
- **Compared** clean training, reduced-data (25%/10%), blind heavy augmentation, and augmentation-conditioned training.
- **Evaluated** restoration quality using **PSNR, SSIM, and qualitative visual comparisons** across different training strategies.

SKILLS

Programming Languages: C, C++, Python, RISC-V.

Web Technologies: HTML5, CSS3.

Tools: LaTeX, Git and GitHub, MySQL, Solid Edge.

Python Libraries: NumPy, Pandas, Matplotlib, Scikit-learn, PyTorch.

Operating Systems: Linux (Ubuntu), Windows.

Communication Skills: English, Telugu, Kannada.

PROJECTS

Vehicle Rental System: (Dr. Shirshendu Das)

- **Designed** a seamless **user interface web application** ensuring **secure data handling** for a **Vehicle Rental System.**
- Implemented features for **user registration**, **vehicle browsing**, and **booking** of vehicles using **10+** normalised **tables**.
- **Tech stack: HTML** and **CSS** (frontend); **Django** and **MySQL** (backend).

Bayesian Inference & Statistical Modeling: (Dr. Arunabha Majumdar)

- **Applied Bayesian inference** using **Gamma-Poisson conjugacy** and Bayesian linear regression for **probabilistic modelling**.

- **Conducted Bayes Factor and Metropolis-Hastings sampling** with **10,000 samples** and 2,000 burn-in iterations.
- **Performed Gibbs sampling** for **Bayesian linear regression** on Radio-Sales data and analyzed **posterior distributions**.

Machine Learning model implementations: (Dr. Sri Rama Murty Kodukula)

- **Implemented Linear** and **Logistic Regression** from scratch, incorporating **regularisation techniques** in **Python**.
- **Constructed** a **K-Nearest Neighbours (KNN) classifier** and visualised **decision regions** using digit classification data.
- **Designed** and **coded** various linear classification models, including **Least Squares**, and **explored** probabilistic approaches.

Reliability-Aware Test-Time Adaptation: (Dr. Mopuri Konda Reddy)

- **Built** a reliability-aware **TTA framework** combining confidence-based memory, **adaptive loss/LR**, and **MEBN**.
- **Engineered ResNet-18 resilience on CIFAR-10-C** by testing **3 corruptions, 3 severities, and 4 batch sizes**.
- **Reduced TENT error by up to 38%** at batch size 4 and consistently improved robustness across corruption types.

POSITIONS OF RESPONSIBILITY

Web Coordinator, Extra Mural Lectures (EML), IIT Hyderabad :

- **Maintained and updated** EML website content, ensuring accurate and timely information for students and faculty.
- **Enhanced** website UX by **editing** member photos and implementing **dynamic image resizing** using **JavaScript**.

RELEVANT COURSES

Computer Science: Data Structures, Algorithms, Computer Architecture, Database Management Systems, Operating Systems

Artificial Intelligence: Computer Vision, Natural Language Processing, Deep Learning, Reinforcement Learning, Foundations of Machine Learning, Probability & Random Variables.

Data Science: Data Mining, Predictive Modelling, Applied Statistics, Bayesian Statistics, Data Science Analysis.

EXTRACURRICULAR

Hobbies: Classical dancing, playing badminton, reading books, exploring web series and daily exercises for health.

NSS volunteer and activities:

- Contributed **120+ hours** to **community welfare** through engagement in **educational outreach**, **sanitation & charity events.**
- Participated in social initiatives including **Vidyadan**, **Swachh Bharat**, **Clean India**, and **cloth donation drives**.
