EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	8.30
St. John's School B.L.W.	Class XII (ISC)	2023	93.80%
St. John's School B.L.W.	Class X (ICSE)	2021	95.83%

SCHOLASTIC ACHIEVEMENTS

Solved 450+ Problems on Leetcode and GeeksforGeeks

Achieved Codeforces rating of 1119 and Codechef rating of 1411

SOF International Mathematics Olympiad: Awarded Gold Medal at the school level (Class 10th and 11th)

SOF National Science Olympiad: Awarded Gold Medal at the school level (Class 10th)

EXPERIENCE

Business Analyst Intern at Licious

- Built an end-to-end **SQL + Excel pipeline** to estimate **wallet share** for customer cohorts across Licious's meat & seafood category, revealing **43-51%** average share and identifying a segment where high-value users spent **under 50%** of their wallet.
- Made dashboards for **test vs control discounting experiments** across Fish & Seafood and Mutton categories, tracking **incremental revenue** and **30,60,90 day retention** for new to category and lapsed customer cohorts.
- Built SQL pipelines powering **CRM targeting** and a **customer-calling program** for **2,150** lapsed/never-tried customers, driving **Rs.9,600+** in directly attributed revenue.
- **Analyzed hourly demand** across **3 metro cities** (Mumbai, NCR, Bangalore) for several chicken SKUs, identifying an **8 AM-12 PM** peak window to time discounts for a yield-optimization initiative tied to **40-45%** of company revenue.

PROJECTS

Fantasy 11 predictor for Cricket

- Built an ML-based Fantasy 11 player ranking system using **236K+** player match records and **38 predictive features** across **4 cricket formats** (T20, ODI, Test, Hundred), achieving **~70% prediction accuracy** in evaluation.
- Engineered an end-to-end prediction pipeline processing **22+ players** per match combining recent **form, venue, opponent, head-to-head** and **match-context** features with fuzzy/alias identity matching for automated player and venue normalization.
- Deployed the prediction system as a **live** Streamlit application, integrating **real-time Cricbuzz data**, automatic playing XI/full-squad detection and ML based player rankings.

Multiplayer Chess Platform

- Developed a **real-time** multiplayer Chess platform using **Flask**, **Flask-SocketIO** and **WebSockets**, enabling simultaneous game rooms with server authoritative move validation and live board-state synchronization.
- Architected a **PostgreSQL/SQLAlchemy** database with 4 relational entities, foreign-key relationships and persistent storage for user authentication, game results and move-level history.
- Implemented a **Minimax** with **Alpha-Beta pruning AI** and deployed the application on Render with Neon PostgreSQL, supporting both **AI** and online **multiplayer** gameplay.

Drowsiness Detection System

- Developed a **real-time** drowsiness detection system using OpenCV and **Convolutional Neural Network** (CNN) to classify eye states (open/closed) from live video feeds.
- Trained the CNN on **1,452** labeled eye images, achieving **97.25%** test accuracy and **97.25%** F1-score for eye-state

classification.
- Integrated OpenCV-based face and eye detection with the trained CNN to detect **1.5**-second eye closure and trigger automated audio alerts for drowsiness detection.

SKILLS

Languages: C/C++, Python, HTML, CSS, JavaScript, SQL

Frameworks & Tools: Flask, Flask-SocketIO, SQLAlchemy, Git/GitHub

ML Frameworks: Scikit-learn, OpenCV, TensorFlow/Keras

Databases: PostgreSQL, SQLite

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, Operating System, Database Management Systems

RELEVANT COURSES

Computer Science: Introduction to Programming (ID1063)

Artificial intelligence: Introduction to AI (ID1050)

Machine Learning Specialization(Coursera): Supervised Machine Learning, Advanced Learning Algorithms and Unsupervised Machine Learning

Maths: Calculus (MA1110, MA1120), Elementary Linear Algebra (MA1140), Differential Equations (MA1150), Numerical Methods (CH2120), Applied Maths in Chemical Engineering (CH2150)

POSITIONS OF RESPONSIBILITY

Manager for Media & Outreach, E-Cell - The Entrepreneurship Club

- Covered campus events, managed social media content for outreach and visibility.
- Worked during E-Merge, E-Summit and workshops handling event coverage and media support.

EXTRACURRICULAR

Deputy Coordinator at Elan & nVision - The Techno-Cultural Fest

Actively participated in the service activities organized by **NSS (National Service Scheme)**
