EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	7.61
ND Ganga School	Class XII (CBSE)	2023	82.60%
Engineers Point Sr Sec School	Class X (RBSE)	2021	99.00%

SCHOLASTIC ACHIEVEMENTS

NTSE Stage-I Qualifier | STSE Qualifier | SOF Olympiad -- District Level

WORK EXPERIENCE

Software Engineer Intern | Product Development | Verint CES Pvt Ltd

- **Analyzed agent workflows** to identify the first-minute context gap caused by fragmented customer information across enterprise systems.
- **Developed InsightIQ**, an AI-powered Customer Intelligence Copilot using **RAG, ChromaDB, Sentence Transformers and multi-model LLMs (Gemini/Grok)** to generate customer context, intent predictions, risk indicators and next-best actions.
- Contributed to the **React-FastAPI implementation and AI orchestration layer**, delivering **~60 sec/interaction savings (~420 hours annually per agent)** and presenting the solution to **600+ global stakeholders**.

AI Training Specialist (Freelance) | Deccan AI

- Evaluated **1,000+ LLM responses** and conducted **200+ hours of human-in-the-loop assessment** across reasoning, factuality, safety, and instruction-following for model benchmarking and quality improvement.
- Designed **500+ adversarial prompts** and structured evaluation rubrics to identify hallucinations, edge-case failures, and response-quality gaps in Gemini-based systems.

PROJECTS

InsightForge -- Evidence-Grounded Analytics Agent

Python | LangGraph | LLMs | SQL | DuckDB | FastAPI | MCP | Docker

- Built a **LangGraph-based analytics agent** converting natural-language business questions into SQL and statistical analyses, with findings linked to their underlying evidence.
- Engineered **BM25 schema/value retrieval, SQL generation, SQLGlot validation, automatic query repair and read-only execution** for reliable Text-to-SQL workflows.
- Developed a **deterministic + LLM critic layer** for numerical claims, statistical tests, citations and causal language, achieving **99.5% recall on 216/217 corrupted claims with 0 false positives across 43 clean claims**.

Isolated Speech Recognition using MFCC-DTW

Python | MFCC | Dynamic Time Warping | Signal Processing | NumPy | SciPy

- Implemented **Dynamic Time Warping from scratch** for temporal alignment of variable-length speech sequences with cumulative distance computation and optimal-path backtracking.
- Built an isolated digit recognition pipeline using **MFCC + DTW template matching**, achieving **87.2% accuracy across 500 TDIGITS samples** with same-speaker reference templates.
- Improved speaker-independent recognition by using **multi-speaker reference templates**, raising cross-speaker accuracy from **39.4% to 51.8%**.

Placement Operations Intelligence Platform

SQL | Power BI | Data Modeling | Product Analytics

- Designed a recruitment intelligence platform modeling **25k+ applications, 150k+ stage records and 12k+ interview slots** across **500+ companies and 1.5k+ students**.
- Built dashboards and **capacity-planning insights** covering funnel conversion, stage drop-offs, recruiter activity, SLA compliance, hiring outcomes, interview scheduling and panel utilization.

POSITIONS OF RESPONSIBILITY

Head Placement Coordinator | OCS, IIT Hyderabad- CoE Industry Connect for **120+ students**; coordinated with **20 Japanese firms/recruiters/stakeholders** for Japan Career Day 2026.

Pitching Lead | OCS, IIT Hyderabad- Led **400-member pitching team**, managing **500+ target organizations** and engaging **100+ recruiters/hiring teams**.

Internship Coordinator | OCS, IIT Hyderabad (*July'24-Apr'26)*- Managed **50+ assessments and hiring processes** across internship and placement drives.

SKILLS

Programming: Python, C, C++, SQL, JavaScript

AI / Machine Learning: Machine Learning, LLMs, RAG, AI Agents, LLM Evaluation, Scikit-learn, Pandas, NumPy, SciPy, Statsmodels

Generative AI: LangGraph, MCP, Prompt Engineering, Text-to-SQL, SQLGlot, ChromaDB, Sentence Transformers

Backend & Development: FastAPI, REST APIs, React, Streamlit, DuckDB, MySQL, PostgreSQL

Tools: Git, GitHub, Docker, GitHub Actions, Jira, Notion, VS Code

RELEVANT COURSES

Computer Science: Data Structures & Algorithms, Operating Systems I & II, Database Management Systems

AI/ML & Scientific Computing: Fundamentals of Machine Learning, Scientific Computing, Computational Numerical Methods I & II

Mathematics: Probability, Statistics, Linear Algebra, Differential Equations

HOBBIES & INTERESTS

3 times Weightlifting Winner (Inter - IITH) | Basketball, Badminton, Table Pool, Strength Training & Fitness
