EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	8.57
New Green Field Public Academy	Class XII (CBSE)	2020	73.80%
Christukula Mission Higher Secondary School	Class X (ICSE)	2018	81.60%

EXPERIENCE

Research Intern | CSE IITH

- Built a working understanding of continual learning workflows to evaluate how deep neural networks can learn new tasks without losing prior knowledge.
- Converted 1+ continual learning research papers into implementation notes, experiment steps for research execution.
- Reduced research ambiguity by mapping the project codebase, documenting experiment flow, and clarifying implementation dependencies for repeatable evaluation.

Research Intern | Electronics & Communication Dept, IIT BHU

- Implemented a **small-world network within a Deep Neural Network (DNN)** to explore its application in machine learning.
- Used **Python and relevant libraries/frameworks** to implement and experiment with the neural network architecture.

UI/UX Intern | CoderFarm, Indore

- Conducted user research and stakeholder discussions to identify customer pain points across navigation, accessibility, and end-to-end user journeys.
- Converted insights from user interviews into 70+ wireframes, user flows, and prototypes, supporting product and business decision-making.
- Developed 5+ product improvement recommendations based on customer feedback and usability findings.
- Assumed greater ownership of product discussions after the reporting manager's departure, collaborating directly with leadership on design and product decisions.

PROJECTS

Mental Health Sentiment Analysis During War Crisis

- Analyzed 4,500+ text documents (research papers and social media comments) to uncover public sentiment and emerging themes during war crises.
- Built an end-to-end text analytics workflow involving data collection, bibliometric analysis, sentiment analysis (VADER), topic modelling(LDA), and keyword visualization to convert unstructured text into decision-ready insights.
- Presented findings through interactive visualizations including co-occurrence networks, co-citation maps, and word clouds for effective stakeholder communication.

SKILLS

Programming: Python, SQL

Data Analytics: NumPy, Pandas, Exploratory Data Analysis, Statistical Analysis

Machine Learning: Scikit-learn, Regression, Classification, Clustering, Supervised & Unsupervised Learning

Deep Learning: Neural Networks, Deep Neural Networks

Text Analytics: NLP, Sentiment Analysis (VADER), Topic Modeling (LDA), Word Cloud Analysis, Bibliometric Analysis, VOSviewer

Tools: Google Colab, Git/GitHub

POSITIONS OF RESPONSIBILITY

Placement Coordinator | Office of Career Services, IIT Hyderabad

- Prospected 40+ HR stakeholders through 10+ cold emails and 30+ calls to explore campus hiring opportunities.
- Received positive responses from 20+ HR stakeholders after pitching IIT Hyderabad's talent pool and hiring opportunities.
- Managed end-to-end follow-ups and stakeholder communication, serving as the primary point of contact for companies.
- Owned end-to-end engagement with Oji India for Japan Career Day, managing company communication, requirements, coordination, and execution as the primary point of contact.

President | Holistic Health Club, MITS Gwalior

- Directed a 15+ member team and delivered 10+ wellness events, strengthening student engagement and promoting holistic well-being across the institute.
- Spearheaded end-to-end planning of events, coordinating stakeholders, resolving operational challenges, and successfully managing initiatives from ideation to delivery.

SCHOLASTIC ACHIEVEMENTS

- Top 10, Investomania, IIT Hyderabad among 175+ participants
- Top 8, ReThink Ideathon, IIIT Hyderabad among 180+ teams
- 3rd Prize, Mock Interview Event, ISTE MITS among 400+ participants
