EXPERIENCE

UI/UX Summer Internship at Tayog

I joined the Tayog team as a UI/UX intern and worked on designing and improving the user experience for Tayog, a platform that connects researchers and students with research opportunities. Contributed to multiple website projects, focusing on creating user-centered and visually cohesive interfaces.

UI/UX Semester Internship at HybridK8s Pvt. Ltd. (Keploy)

During the internship, as a UI/UX Design Intern contributed to both visual and user experience aspects of the product. My responsibilities included: Designing user interface components and screens for Keploy's product and related design assets. Assisting in defining and refining the visual language to ensure consistency across the product. Creating illustrations and visual elements to support product storytelling and usability.
