EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	8.92
Govt Sajjan H.S. Excellence School, Umaria	Class XII (Board of Secondary Education Bhopal, Madhya Pradesh)	2017	83.40%
Bandhavgarh Bal Kalyan Pre Middle School Jawahar Colony Chapha Umaria	Class X (Board of Secondary Education Bhopal, Madhya Pradesh)	2015	77.16%

SCHOLASTIC ACHIEVEMENTS

- **Participant, Cardiovascular Research Convergence 2026, IIT Hyderabad & NIMS** -- Attended a conference focused on bench-to-bedside cardiovascular research, data science and AI in cardiology, Sep 2026.
- **Participant, Pharma & Biopharma: Industry Orientation Workshop, IIT Hyderabad** -- Gained industry-oriented exposure to pharmaceutical and biopharmaceutical domains, Aug 2026.
- **INSPIRE Awardee, DST, Government of India** -- Selected for the INSPIRE Award for a science project and district-level exhibition, 2014-15.

POSITIONS OF RESPONSIBILITY

- **PG Mentor,** Sunshine - IITH | APR 2026 - Present
- **Sports Week Volunteer, Dr. Harisingh Gour Vishwavidyalaya** -- Managed scorekeeping and maintained scorecards during college Sports Week

SKILLS

- **Programming:** Python (Basic), SQL (Learning)
- **Data & Visualization:** MS Excel, Power BI
- **Software:** MS Word
- **Design:** CAD Modelling (Basic)
- **Domain Knowledge:** Knowledge of formulation development, manufacturing processes, and dosage forms

RELEVANT COURSES

- **M.Tech - Medical Device Innovation:**

Biomedical Devices | Biodesign Process | Design Thinking | 3-D Rapid Prototyping & Modelling | Flexible & Wearable Electronics | Physio-Anatomy & Patho-Physiology

- **B.Pharm:**

Human Anatomy & Physiology | Pharmacology | Pathophysiology | Pharmaceutical Engineering | Quality Assurance | Novel Drug Delivery Systems | Biopharmaceutics & Pharmacokinetics

PROJECTS

Accessible Auditory Learning Platform for Visually Impaired Students | M.Tech Prototyping Project

Developing a prototype of an accessible learning platform as part of the product-based M.Tech programme at IIT

Hyderabad.

Building a Text-to-Speech (TTS) system to convert educational text into speech for visually impaired students.

Developing an auditory graph-learning lab that converts 2D graphs into meaningful sounds, enabling students to understand graph concepts through auditory interaction.

Integrating AI, audio processing, and assistive technology to create an inclusive learning experience for visually impaired students.

TRAINING / EXPERIENCE

- **Clinical Immersion, Kamineni Hospital, Hyderabad** -- Gained hands-on exposure to diverse clinical workflows across departments and developed skills in identifying healthcare needs and translating clinical problems into potential medical-device solutions.
- **Industrial Trainee, Bro-Shell Remedies, Sagar** -- Completed 4-week industrial training in formulation production and development, Jul-Aug 2024.

HOBBIES & INTERESTS

Hobbies & Interests: Badminton | Flute (Learning) | Watching TMKOC
