EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	9.58
Champavari Vidyalaya Beed	Class XII (Maharashtra State Board)	2017	74.46%
Champavari Vidyalaya Beed	Class X (Maharashtra State Board)	2015	93.60%

SKILLS

- **Programming Languages & Tools:** Python, SQL, Excel, Jupyter Notebook, VS Code, Git/GitHub, Jinja2
- **Libraries & Frameworks:** Pandas, NumPy, Scikit-learn, Flask, Matplotlib, Seaborn, Statsmodels
- **Technical/Core Skills:** Machine Learning, Unstructured Data Analytics, Data Visualization, Statistical Analysis, EDA.
- **Business Analysis:** Requirements Gathering, Business Requirement Analysis, Data Interpretation, Stakeholder Communication, Process Analysis, Documentation, Business Insights & Reporting
- **Soft Skills:** Problem Identification, Problem Solving, Data-Driven Decision Making, Analytical Thinking, Team Collaboration, Business Communication
- **Management & Leadership:** Project Management, Stakeholder Management, Planning & Execution, Cross-Functional Collaboration

PROJECTS

PainAlert - Symptom Based Triage & Risk Assessment System Link

- Addressed the challenge of assessing pain severity across **7 symptom categories and 4 duration options**, helping identify symptoms requiring timely medical attention.
- Developed a **Flask + XGBoost classification system** with a **rule-based red-flag engine** to analyze pain characteristics, associated symptoms, and safety-critical warning signs.
- Integrated **SQLite/SQLAlchemy** for assessment storage and built an end-to-end workflow combining **XGBoost predictions and rule-based checks** for risk categorization.
- Enabled users to receive guidance on the **appropriate level of medical evaluation** based on reported symptoms and identified risk factors **for informed healthcare decision-making**.

Diabetes Prediction Using Machine Learning Link

- Developed a machine learning web application to predict **diabetes risk** using clinical parameters including glucose, BMI, blood pressure, insulin, age, and diabetes pedigree function.
- Performed **data preprocessing, EDA, feature engineering, model training, and evaluation** to build an effective diabetes prediction pipeline.
- Implemented an **SVM classification model** with a **Flask + Jinja2-based interface** to generate diabetes risk predictions **for user-friendly clinical risk assessment**.

PCOS Health Analytics & Product Strategy Platform

- Conducted clinical discovery, literature review, and user surveys; defined personas, JTBD, and adherence hypotheses.
- Analyzed 541 patient records using Python, EDA, and statistical testing; built ML models achieving ~90% accuracy.
- Benchmarked 5 PCOS tracking apps; defined product vision, MoSCoW-prioritized MVP, and phased roadmap.

INTERNSHIPS

Business Analytics Intern | Krutanic Solutions, Bengaluru | Remote

- Analyzed **10 business datasets** to identify trends, patterns, and actionable insights for data-driven decision-making.
- Performed **data cleaning, EDA, and visualization** using Excel, Python, Pandas, SQL, and Matplotlib.
- Prepared **5+ analytical reports and visual summaries** to communicate findings and support business decisions.

Dental Intern | Pravara Institute of Medical Sciences, Loni

- Supported patient care for **200+ patients** across multiple dental specialties, including diagnosis and treatment planning.
- Assisted with **100+ dental treatments and 2 major surgical procedures** under faculty supervision.
- Maintained **clinical records, documentation, and follow-up care** to support efficient clinical workflows.

POSITIONS OF RESPONSIBILITY

Cultural Secretary | Pravara Institute of Medical Sciences (PIMS), Loni

- Coordinated the planning, scheduling, and execution of 2 major cultural events **Ganesh Chaturthi and Padmanjali 2022** while **managing activities for 500+ students.**
- Led **event planning, team coordination, scheduling, and logistics** for college-level programs, ensuring smooth execution within defined timelines.
- Collaborated with **students, faculty, and organizing teams** to coordinate activities, manage resources, and deliver events successfully.

Teaching Assistant | Department of Biomedical Engineering, IIT Hyderabad

- Assisted in teaching **Anatomy & Physiology** to **15 students** through tutorials and doubt-solving sessions.
- Conducted and evaluated **tests and assessments**, supporting student learning and progress.
- Collaborated with **faculty and students** to support effective course delivery and clarify academic concepts

RELEVANT COURSES

- Data Science Mentorship Program by Campus X , Design Thinking, 3D Prototyping & Modelling, Flexible & Wearable Electronics, Product Design & Development, Bio-Design Process, Communication Skills Advanced.

EXTRACURRICULAR

- Learning Japanese vocabulary and developing conversational communication skills in Japanese.

HOBBIES & INTERESTS

- Cooking & Culinary Skills, Exploring New Recipes & Cuisines, Gardening & Plant Care, Creative Crafting & DIY Projects, Fitness Training & Wellness, Travelling & Exploring New Places
