EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	8.67
New Indian Model School , Dubai	Class XII (CBSE)	2020	78.00%
New Indian Model School , Dubai	Class X (CBSE)	2018	77.40%

SCHOLASTIC ACHIEVEMENTS

- Ranked Top 10 nationally among 1000+ Teams in the **Accenture Innovation Challenge 2026** for architecting an KPI diagnostic engine using AI.
- **Won First Prize at the Intel-sponsored IEEE CSKS Slash Key 2.0 National Hackathon** for engineering an allergen-aware recommendation platform.
- Conferred IEEE Computer Society Kerala Section Best Student Volunteer 2023 and IEEE RSET Best Outreach Volunteer 2023 for technical leadership.

SKILLS

- **Programming and Core Systems:** Python, TypeScript, JavaScript, C, C++, SQL, HTML/CSS, R, Git, Linux
- **GenAI and Machine Learning:** Agentic Workflows, LangChain, RAG, Prompt Engineering, Vector Databases, XGBoost, Random Forest, YOLOv8, OpenCV, Explainable AI
- **Full-Stack, Cloud and Tools:** Next.js, Flask, REST APIs, Microservices, Docker, CI/CD, AWS, Azure, PostgreSQL, Supabase, PowerBI, Apache Superset, Agile

WORK EXPERIENCE

BuildBay Private Limited | Founders' Office Operations Intern | India (Dec 2025 - Apr 2026)

- Spearheaded filings for non-dilutive government grants, venture funding, and provisional software patent IP while formulating bottom-up pricing models.
- Orchestrated Agile execution across group subsidiaries, aligning founders and engineering delivery teams to eliminate operational roadmap bottlenecks.

Arbitek | Founder | Dubai, UAE (Sept 2024 - Sept 2025)

- Architected enterprise solutions for 3 UAE clients across ERP, CRM, compliance software, and digital twins using Python, Next.js, and cloud microservices.
- Accelerated average client delivery cycles by 15% and lifted client ROI by 10% by translating business logic into reusable software IP and testable specifications.

Bar Council of Kerala | Software Quality and UAT Intern | Kochi, India (Jun 2024 - Aug 2024)

- Automated regression test suites using Python scripting, reducing manual verification overhead and triaging functional defects prior to production sign-off.

PROJECTS

Scope 3 ESG Data Quality Prediction Engine | IIT Hyderabad (2026)

- Trained Random Forest and XGBoost classification models on BRSR disclosures to predict supplier emissions data reliability across fragmented Tier-2 supply chains.
- Resolved reporting bottlenecks in Scope 3 greenhouse gas auditing and built interactive compliance visualization dashboards via Apache Superset.

Rally | Campus Event and Community Platform (Ongoing)

- Architected a full-stack campus platform in Next.js and TypeScript, integrating ScanRoll, a secure QR check-in engine preventing ticket sharing across verified users.
- Built an intelligent recommendation engine using student interest embeddings and attendance patterns to personalize event discovery and organizer analytics.

POSITIONS OF RESPONSIBILITY

- **Chairperson | IEEE Computer Society, RSET Student Branch (Mar 2023 - Mar 2024):** Spearheaded technical workshops and hackathons engaging 500+ participants; collaborated with industry speakers to address curriculum-to-industry gaps.

- **Community Manager | IEEE Innovation and Entrepreneurship, Kerala Section (Jan 2023 - Jan 2024):** Managed multi-channel technical outreach, coordinated cross-college innovation bootcamps, and mentored student teams.

- **Head, PG Buddy Programme | Sunshine, IIT Hyderabad (2026 - Present):** Promoted to lead peer mentorship operations; manage program-wise student cohort allocations, conduct team reviews, and resolve escalations.

RELEVANT COURSES

Core Engineering and Venture: Machine Learning, Network Security, Database Management Systems, Text Analytics for Business, Strategic Management, Intellectual Property Rights

EXTRACURRICULAR

- Technical Communities: IEEE , collegiate hackathons, and amateur astronomy research.
