EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	8.20
HARVEST PUBLIC SCHOOL,KHAMMAM	Class XII (CBSE)	2023	93.00%
HARVEST PUBLIC SCHOOL,KHAMMAM	Class X (CBSE)	2021	94.60%

TECHNICAL SKILLS

- **Programming Languages:** C++, Python

- **Machine Learning Tools:** NumPy, pandas, matplotlib,scikit-learn

-**Deep Learning:** TensorFlow, Keras

-**Tools and Technologies**:Git/GitHub,VS code,Google colab,Jupyter notebook

-**AI & LLM:** AI Agents, Prompt Engineering, MCP

POSITIONS OF RESPONSIBILITY

1.Events Coordinator - MILAN 2024

Led the organization of IIT Hyderabad's inter-hostel sports, cultural, and scitech championship, ensuring smooth execution of all events.Collaborated cross-functionally with cultural, sports, and scitech clubs, hostel representatives, and the central Milan organizing team to ensure smooth planning and execution of over of events, streamlining communication and logistics across diverse stakeholders.

2.PR and Technical Core for Aero

Contributed as both the Technical and PR core of the Aero Club

Designed promotional posters, posts, and videos while coordinating with the Milan and Elan organizing teams to host aerospace-themed events. Contributed to the technical execution by helping build a model RC plane

RELEVANT COURSES

Mathematics Courses: Calculus I, Calculus II, Elementary Linear Algebra, Differential Equations,Trandform Techniques,Intro to Probability,Intro to statistics.

Programming:Introduction to Programming in C

PROJECTS

Boston Housing Price Prediction:

- Built a machine learning model to predict house prices using the Boston Housing dataset.
- Performed data analysis, feature scaling, and trained multiple models including Linear Regression, Random Forest, and XGBoost.
- Compared model performance and identified important features affecting house prices.

Customer Churn Prediction using ANN | Python, TensorFlow, Keras

- Built an ANN model for customer churn prediction with feature encoding and scaling.
- Evaluated performance using accuracy and confusion matrix.

WORK EXPERIENCE

AI Engineering Intern | Diaganol Matrix | 2 months

- Built **Microsoft connectors from scratch using Codex** for enterprise application integration.
- Developed **AI Agent workflows using JAI and MCP** for business process automation.
- Integrated **Microsoft Dynamics 365 and Dataverse** with AI-driven workflows.
- Designed and tested workflows across **Sales, Inventory, and Customer Service** use cases.
- Performed **CRUD, integration, error-handling, and edge-case testing** of connectors and workflows.
- Debugged API/tool integration issues and validated **data retrieval and operations**.
