EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	7.93
Shiv Jyoti Convent Senior Secondary School	Class XII (Central Board of Secondary Education)	2019	78.60%
Delhi Public School	Class X (Central Board of Secondary Education)	2017	9.60%

SCHOLASTIC ACHIEVEMENTS

- Awarded **20,000 BUILD Grant** by IIT Hyderabad to develop a B2B raw material procurement platform aimed at streamlining supply chain inefficiencies across India's industrial sector
- Shortlisted for **Bharat Innovates 2026** for the same venture; advanced to Stage 2 and presented to a national jury at IIT Bombay

SKILLS

Languages: Python, SQL

ML/AI: Supervised & Unsupervised Learning, Deep Learning (CNN, RNN, Transformers), NLP, LLMs & RAG

Libraries & Frameworks: TensorFlow, scikit-learn, Pandas, NumPy, Matplotlib, Flask

Tools: Git & GitHub, Docker, Jupyter

Analytics: Statistics & Probability, Data Preprocessing, Data Visualization, Model Evaluation (Precision, Recall, F1)

Management : Leadership and Strategic Management

RELEVANT COURSES

Machine Learning and its Applications, Text Analytics for Business, Corporate Finance, Marketing, Entrepreneurial Marketing, Foundations of Techno Entrepreneurship, Operational Entrepreneurship, Innovation Management, Strategic Management, HR and Leadership

PROJECTS

Strategic Analysis of Kapidhwaj AI -- AI Surveillance Startup | Strategic Management

- Conducted primary research through a founder interview with the CEO of Kapidhwaj AI -- an IITH thesis-origin venture incubated at IIT Gandhinagar and backed by the DST NIDHI PRAYAS grant -- covering venture formation, entrepreneurial decision-making, and growth strategy
- Benchmarked global incumbents on market share, revenue, R&D intensity, and go-to-market strategy to map the competitive landscape
- Traced the industry's evolution from analog CCTV to AI-enabled edge analytics, identifying technology trends driving differentiation and assessing the venture's positioning against established players

Smart AI Attendance System (Face & Voice) | Python, OpenCV, dlib, SpeechRecognition, Streamlit

- Built an automated dual-biometric attendance system combining real-time facial recognition and voice verification.
- Used OpenCV/dlib for facial embedding extraction and SpeechRecognition for spoken passphrase verification.
- Developed a Streamlit interface with a logging pipeline to automatically record verified attendance timestamps.

AI Japanese Language Learning Platform - Conversational Speaking Practice | Aug 2025 - Ongoing

- Validated concept through surveys and depth interviews -- existing tools scored **3.02/5** for preparing learners for real conversations, while **77.5%** would pay for a solution.
- Conducted a competitive scan of **22 language-learning platforms**, comparing **speaking practice, feedback, and cultural context**.
- Building a **conversation-first lesson engine** with an **AI tutor**, structured around teaching objectives and reinforcement exercises.
- Developing **scenario-based speaking practice** with **real-time correction**, **transcript generation**, and **error capture for spaced review**; pilot language: **Japanese**.

EXTRACURRICULAR

- **PBL Course: Working in Cross-Cultural Context** | **JIGER, IIT Hyderabad** | Sep 7-11, 2026 Participated in an intensive **Project-Based Learning (PBL)** program organized by the **Japan-India Global Education & Research Centre (JIGER)** at **IIT Hyderabad**, collaborating in **cross-cultural teams** with **Japanese university students** to research and develop **strategic, actionable frameworks** addressing **urban youth loneliness** in **India and Japan**.

- **Organizing Team Member**, 7-Day Online Faculty Development Programme on "Advanced Research Methodologies" -- Dept. of Entrepreneurship & Management, IIT Hyderabad | 29 Jun - 05 Jul 2026

INTERNSHIP

Intern -- DISHA Project | *Computer Centre (ERP), IIT Hyderabad* 21 May - 25 Jul 2026

- Engaged directly with institute administrative offices to identify operational bottlenecks and process gaps, translating stakeholder needs into functional requirements for the platform
- Coordinated between the institute administration and the technical development team to align requirements, track development progress, and ensure timely delivery of project milestones
- Contributed to frontend and backend development, supporting the build and integration of core platform modules
