EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	6.45
Narayana Junior College	Class XII (Telangana State Board of Inter Education)	2023	95.20%
Srujana Concept School	Class X (Telangana State Board of Secondary Education)	2021	100.00%

WORK EXPERIENCE

Data Analyst Intern | Bluestock Fintech

Built **ETL pipelines** using **Python, Pandas, and SQL** to ingest, clean, validate, and transform multi-year Nifty 100 financial data for analysis and reporting

Performed exploratory data analysis and financial analysis on Nifty 100 companies (profitability, growth, valuation, leverage **KPIs)**; developed **Power BI and Tableau dashboards** and automated financial **API** workflows using **clustering, NLP**, and **automated PDF** reporting

POSITIONS OF RESPONSIBILITY

Head - Finance & Sponsorship | Milan, IIT Hyderabad | 2024-2025

Promoted from Sponsorship Coordinator to Head; led a **10**-member team (8 direct reports) on sponsorships and financial operations for IITH's flagship fest

Controlled a **15L+** budget for a **110**-member organizing team through planning, expense control, and vendor negotiation

Raised **8L+** in sponsorships (**6L** as Head) through **100+** corporate pitches, closing 8-9 signed partnerships

Core Team Member | Block Space, IIT Hyderabad | 2023-2024

Founding member of IITH's **first** blockchain/Web3 community; built its structure, programming, and outreach strategy from scratch

Designed and delivered **12+** sessions annually (avg. **30** attendees) on blockchain and Web3 fundamentals

Class Representative & HR Council Member | IIT Hyderabad | 2023-2025

Class Representative: primary liaison for **60** students with faculty and administration; handled feedback, announcements, and issue resolution

HR Council Member (Gymkhana): represented hostel block for **Milan**; addressed requirements and operational concerns of **330** residents with administration

Hospitality & Logistics Coordinator | TEDxIITH, IIT Hyderabad | 2024-2025

Owned hospitality and logistics for all **TEDx** events; ran end-to-end guest coordination and on-ground execution for **7** speakers

Designed Freshers Orientation content and aligned operational planning with internal event teams

SKILLS

Programming & Data: Python, SQL, Pandas, NumPy, Excel, Power BI, Data Cleaning & Manipulation, Exploratory Data Analysis (EDA), Data Visualization

Business & Strategy: Business Analytics, Financial Analysis, Market Research, Competitive & Strategic Analysis, Problem Solving

Leadership & Stakeholder Management: Team Leadership, Stakeholder Management, Cross-functional Collaboration, Project Management

AI & Generative AI: Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), AI Agents, Prompt Engineering, Natural Language Processing (NLP), Knowledge Graphs, Contextual Retrieval

Tools: Jupyter Notebook, Git, GitHub, VS Code,LaTeX

RELEVANT COURSES

Innovation Management,Market Research, Business Analytics using Python,Game Theory

PROJECTS

Vendor Performance Analysis - Retail Inventory & Sales

Built **SQL ETL pipelines** for multi-table data aggregation, improved query performance using **CTEs**, reducing runtime.

Performed **EDA and Hypothesis testing** in Python to assess vendor efficiency, profitability, and inventory turnover.

Exposed **$2.71M unsold stock** & **65.7% supplier reliance**, recommended diversification and bulk-buy strategies, driving **72% cost savings**, visualized vendor performance and profit margins through **Power BI** dashboards.

Amazon Music-User Engagement Strategies

Analyzed Amazon Music's user acquisition and engagement challenges in India (sub-7% market share), uncovering that only 45.4% of eligible Prime members had ever adopted the service.

Conducted extensive user research to develop 4 personas,mapping pain points such as complex onboarding, lack of exclusive content, and weak social integration to feature-level gaps.

Designed a strategic product roadmap with 4 solutions, including multi-provider sign-in, Prime Video content synergy, and social "Story Share"-to drive organic acquisition and improve user engagement.

Adaptive Parking Pricing System -- Dynamic Pricing & Optimization

Designed and executed a adaptive parking pricing system incorporating **5**+ real-time factors (occupancy, traffic, queue length, vehicle type, competitor pricing), boosting revenue potential by up to **25%** while simultaneously reducing congestion and overcrowding.

Implemented and evaluated **3** predictive models (linear, multi-factor, competitor-aware) with interactive visua-lization dashboards, **improving** demand forecasting accuracy by **15%** over baseline methods.

Agentive Finance AI | GenAI Financial Research System

Built an AI-powered financial research system using **Python**, **RAG**, and **LLM** agents to analyze market data and financial reports.

Implemented knowledge graph-based retrieval and contextual **analysis** to generate source-backed **financial insights** and company comparisons.

EXTRACURRICULAR

Intern, Crowdfunding - [Muskurahat Foundation]: Supported fundraising efforts, contributing to successful campaigns.
