EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	8.38
KEEMS Mannanam	Class XII (Kerala HSE)	2023	99.30%
Bharatiya Vidya Bhavan Poochatty	Class X (CBSE)	2021	99.80%

WORK EXPERIENCE

Licious | Business Analytics Intern *[Jan 2026-June 2026]*

- **Product Launch & Campaign Evaluation**: Analyzed the launch performance of Loaded Chicken Momos coupons through pre-post cohort tracking across core product KPIs (DAUs, transactors, order frequency, AOV, and revenue) to optimize promotional strategy and campaign ROI.
- **Cross-Category Behavior & Targeted Growth**: Evaluated cross-category purchase patterns across chicken, mutton, and fish to identify target user segments for personalized value-added product campaigns, generating a **22% ROI**.
- **Engagement Metric Definition & User Intent**: Defined a 15-minute engagement session metric filtering out low-intent and order-tracking visits to accurately quantify user retention and evaluate the product impact of SMS, push notifications, and WhatsApp growth channels.
- **Geographic Product Expansion & Assortment**: Conducted geospatial and order frequency analysis across demand clusters and AOVs to inform product expansion strategies, scaling late-hour operations from **5 Bangalore hubs to 100+ hubs pan-India in 3 months** while optimizing localized product assortment.
- **Omnichannel Assortment Strategy**: Analyzed online order density within physical store catchment areas to identify localized consumer demand patterns and optimize offline retail product positioning.
- **Product KPI Tracking & Dashboards**: Built and maintained 3 organization-wide Tableau dashboards tracking key product and business metrics such as transactors, revenue, ARPU, AOV, and category conversion, across city, microcity, and hub levels to enable data-driven decision-making on daily, weekly, and monthly cycles.

PROJECTS

Adaptive Attention-Routing AI for Ambient Surfaces | *Python, Streamlit, LLMs*

- **Problem & Contextual AI MVP:** Addressed ~70% zero-click lock screen bounce rates by deploying a Streamlit MVP featuring a Random Forest classifier **(89% accuracy)** that dynamically predicts user "Attention Bandwidth" using simulated device telemetry.
- **LLM Pipeline & Experimentation:** Engineered a real-time LLM summarization pipeline across **100+ RSS feeds** achieving **<350ms latency** and **94% adherence** to 5-word micro-card limits, and designed an A/B testing framework to track "Attention-Payload Match Rate."

Credit Card Fraud Detection Pipeline | *Python, Scikit-learn, Pandas, NumPy*

- **Problem & Product Context:** Addressed critical user security vulnerabilities by evaluating ML models (Logistic Regression, Decision Trees, KNN, Random Forest) to build a proactive trust & safety fraud detection feature.
- **Trade-off Analysis:** Navigated extreme class imbalance tradeoffs using random under sampling; prioritized precision and recall optimization to achieve **~94% test accuracy**, minimizing false positive interventions to maintain a frictionless user experience.

Flight Fare Dynamic Pricing Analysis | *Python, Pandas, Seaborn, Linear Regression*

- **Market Analysis & User Behavior:** Investigated dynamic pricing elasticity by analyzing flight ticket datasets across airlines, origins, and departure lead times to uncover customer booking patterns and willingness-to-pay.
- **Predictive Impact:** Built a baseline predictive pricing model to quantify the product impact of flight duration and advance booking (**R^2 score of 0.05 and an MAE of ~19,129**), generating foundational insights for conversion optimization algorithms.

POSITIONS OF RESPONSIBILITY

- **UG Mentor Head - Sunshine, IIT Hyderabad | Apr 2025 - May 2026**: Led a team of undergraduate mentors focused on student mental health, suicide prevention, and anti-ragging initiatives; conceptualized and executed

empathetic community engagement events including Random Acts of Kindness, Sunshine Strides, Painting Without Brushes, and T-Shirt Painting.
- **PR & Outreach Coordinator - Inter-IIT Sports Meet | May 2025-Present**: Directed nationwide public relations and outreach strategies across 20+ IITs, managing sponsor partnerships, stakeholder communications, and national publicity.
- **Publicity Coordinator - Elan & nVision 2025 | Jan 2024 - Mar 2025**: Led a 5-member cross-functional team executing multi-channel outreach campaigns, successfully driving **10,000+ festival attendees**.
- **UG Mentor - Sunshine, Counselling Cell, IIT Hyderabad | Jul 2024-May 2025**: Mentored 15 first-year students to ease their academic and social transition; recognized as **"Star Performer"** for exceptional mentor impact and leadership empathy.

SKILLS AND RELEVANT COURSES

- Programming Languages: C++, Python, C, javascript
- Software Tools: GitHub, VS Code, Solid Edge (CAD Simulation), AutoCAD, Google Sheets, Excel, QGIS.
- Soft Skills: Leadership, Team Management, Communication, Planning, Coordination, and Execution
- Relevant Courses: Probability, Introduction to Statistics, Sustainability in Civil Engineering, Communication skills, Fundamentals of Organizational Structure, Sustainability in a changing climate, ESG for Entrepreneurs, Visual Analytics
