EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	8.23
Narayana Junior College	Class XII (TSBIE)	2023	97.00%
Johnson Grammar School	Class X (ICSE)	2021	90.80%

WORK EXPERIENCE

OHO India Life Tech Pvt. Ltd. -- Product & Data Analyst Intern

- Analysed **100,000+ customer and operational records** to uncover usage patterns and insights that informed product design and marketing strategy.
- Designed and automated **10+ interactive dashboards** in **Power BI, Tableau, and SQL**, tracking **25+ core KPIs** and improving reporting turnaround time by **60%**.
- Built and validated **predictive models** using **Python and NumPy,** identifying efficiency gaps and driving a **20% improvement in process performance**.
- Collaborated with **5+ cross-functional teams** -- including data engineers, product managers, and healthcare experts -- to define success metrics and ensure **98% data accuracy** across reports and dashboards.

PROJECTS

Walmart Sales Data Analysis (SQL + Python End-to-End Project)

- Built an **end-to-end data pipeline** using Python (Pandas, NumPy) and SQL (MySQL, PostgreSQL) to process and analyse **10K+ Walmart sales records**.
- Performed **data cleaning & feature engineering**, improving data quality by **100% (removing duplicates, fixing missing values, standardising formats)**.
- Designed and executed **15+ complex SQL queries** to uncover revenue trends, branch performance, and customer buying patterns.
- Automated **data loading & reporting workflows** with SQLAlchemy, reducing manual effort by **30%** and ensuring reproducibility through GitHub documentation.

Text Analytics of Urban Company: Customer Sentiment & Product Pain-Point Analysis

- **Processed 81K+ customer reviews** spanning **11 years (2015-2026)**, applying NLP techniques including **VADER, LDA & NER** to extract sentiment, customer needs and recurring product issues.
- **Mapped customer feedback into 5 actionable pain-point categories**, using theme prevalence and sentiment signals to identify opportunities across **payments, service quality, support, booking reliability, and safety**.
- **Converted qualitative user feedback into 5 product interventions**, including **48-hour refund SLA, predictive booking-reliability scoring and service-quality improvements.**

Healthy Snack Shop: Campus Market Research Study | Course Research Project

- **Led end-to-end user research** for a campus snack venture, designing a **mixed-method survey with different scales** and analysing **500+ responses** to identify user preferences, demand patterns, and purchase behaviour.
- **Segmented users and analysed product, timing & usage preferences**, translating insights into actionable product and business decisions.
- **Developed a data-driven GTM strategy** covering **pricing, location, operations timings & protein-focused product mix**, prioritising physically active students as the core segment and recommending a lean launch model.

Product Analytics Dashboard & KPI Tracking

- Developed a real-time dashboard to monitor key product metrics (DAU, MAU, retention, revenue) for 5k+ users.
- Leveraged **SQL, Tableau, and Excel** for data extraction, analysis, and visualisation.
- Enabled the product team to identify trends and make data-driven decisions weekly, improving user engagement insights.

POSITIONS OF RESPONSIBILITY

Overall Coordinator | Elan & nVision (Annual Techno-Cultural Fest)

- **Progressed from a first-year member to Overall Coordinator**, leading a **300+ member team** to execute IIT Hyderabad's flagship techno-cultural fest for **50,000+ participants across 3 days**, with **1 Cr+ budget oversight**.
- **Spearheaded end-to-end on-ground execution**, by leading **10 functional domains,** including sponsorships, events, hospitality, marketing, finance, and logistics and coordinating **100+ vendors, corporate partners and institute/government stakeholders** to scale the fest's operations, events and participant experience.
- **Drove 2× YoY sponsorship revenue growth** through strategic partner acquisition and outreach while **optimising budget and resource allocation and operational workflows**, reducing overheads by **20%** and improving participant check-in efficiency by **30%**.
- Independently wrote ad copy and **campaign** messaging across channels such as **Meta**, determining **user-facing value propositions** and communication.

International Relations (IR) Cell, IIT Hyderabad -- Inbound Buddy

- Assisted **20+ incoming foreign exchange students** with academic and cultural orientation, ensuring smooth integration into campus life and enhancing their overall onboarding experience.
- Supported the IR Cell in organising **international collaboration programs**, including *Japan Month*, in association with **JST, JASSO, and the Embassy of Japan**, strengthening IITH's global partnerships and intercultural outreach.
-

SKILLS

Technical Skills: SQL (Advanced), Python , MS Excel, Tableau, Power BI, Data Analysis & Visualisation, KPI Tracking, Dashboard Creation, Data Cleaning, Market Research

Soft Skills: Product Sense, Critical Thinking & Problem-Solving, Stakeholder Management, Cross-functional Collaboration, Project Management, Communication & Presentation

Relevant Courses: Marketing Research, Text Analytics for Business, Visual Analytics, Statistics

EXTRACURRICULAR

Prayaas Volunteer: Mentored underprivileged children through weekly teaching sessions and outreach activities.

Enthusiastic **Badminton Player** representing my hostel in **MILAN** (Inter-Hostel Tournament), and event **winner**.

Retail Trader - Managing a personal **Stock Portfolio** of **300,000+**
