Ratnam high school	Class X (SSC)	2021	10.00%

WORK EXPERIENCE

Product Analyst Intern | ConnectGrad

Student Mentorship & College Discovery Platform | May 2026 - Present

- Drove first-season product growth, scaling the mentor-mentee platform from **700+ initial users** to **3,000+ users**, including **2,500+ Joint Entrance Examination aspirant mentees and 500+ IIT/NIT mentors**.
- Analysed **acquisition, activation and engagement** funnels, Conducted user research **across 700+ early users** contributing to **4-5× user growth** through improved marketing, referrals and mentor-mentee engagement.
- Collaborated with the **founder and engineering team** to prioritize product initiatives, refine user journeys and improve the **platform experience** based on user behaviour and feedback to improve user retention and usage.

POSITION OF RESPONSIBILITY AND EXPERIENCE

Finance Head | Prayas - Rural Development Club | IIT Hyderabad

- Managed **budget allocation**, expense tracking and **financial planning** across Prayas initiatives and events , ensuring effective utilization of club resources while maintaining spendings within approved budgets and optimising costs.
- Coordinated financial planning and execution for club activities, **working across teams** to estimate requirements, monitor expenditures and ensure timely allocation of resources for a well **planned event** experience for students.

Hostel Representative | IIT Hyderabad | 2024-25

- Represented and coordinated communication for **300+** hostel residents, consolidating student concerns and effectively **facilitating communication** between residents, representatives and hostel administration getting them resolved.
- Mobilized students across hostel activities, competitions and institute events, coordinating participation and engagement that contributed to the hostel securing the Milan General Championship against 23 hostel blocks and winning culturals .

Logistics & Finance Head | Media Council, IIT Hyderabad | 2025-26

- Managed end-to-end vendor coordination and procurement for 4000+ council and institute merchandise, overviewing design negotiating pricing, and timelines while coordinating requirements across stakeholders to ensure timely execution.
- led the team and Oversaw financial planning, expense tracking and budget utilization for merchandise pieces and council activities, evaluating costs and coordinating purchases to ensure spending remained aligned with allocated resources.

PROJECTS

Pathomics -- Digital Pathology Platform

Research Project under Prof. Rahul Kumar, IIT Hyderabad

- Conducted user and workflow analysis for Whole Slide Imaging-based cancer screening, identifying key pain points in slide analysis and diagnostic reporting across the end-to-end pathology workflow and general clinical review process.
- Defined product requirements, user journeys and product design for an intuitive workflow connecting slide review, cancer classification and reporting while improving usability, information clarity and overall diagnostic workflow

efficiency.
- Collaborated with faculty and technical teams to prioritize features, refine workflows and translate clinical requirements into product specifications through iterative feedback, stakeholder discussions and continuous product refinement.

E-Commerce Product & Order Management System *(SQL, PostgreSQL)*

- Designed a **scalable relational database** architecture supporting customer profiles, product catalogs, inventory, orders, payments and **end-to-end e-commerce transaction** workflows across **interconnected business entities**.
- Implemented normalized schemas, entity relationships, constraints and optimized SQL queries to maintain data integrity, reduce redundancy and enable efficient cross-functional data retrieval across product, customer and transaction records.
- Developed transaction handling and business analytics queries for metrics including order tracking, inventory management and product performance to generate actionable insights and support data-driven business decision making.

CASE STUDIES

- Analysed user personas, subscription behaviour and customer pain points to identify gaps in **Zomato Gold adoption** and opportunities across the user journey. complemented by a **GTM strategy** focused on increasing Gold adoption
- Evaluated customer segments, competitor offerings and purchasing behaviour to identify opportunities for improving **Blinkit's** unit **economics** and **profitability** focused on increasing average order value and **customer retention**
- Analysed user personas, onboarding flows and key UX friction points to identify barriers affecting acquisition, activation and continued usage of the **Tata Neu ecosystem**. Creating a more seamless and integrated super-app experience.

SKILLS

Analytics : Power BI, Tableau, Mixpanel, Google Analytics, Excel, Jupyter Notebook **| Design** : Figma, Canva

Programming & Data Skills: C, C++, Python (Pandas, NumPy, Matplotlib), SQL, PostgreSQL |

EXTRACURRICULAR

Athletics: Active participant in throwing events and competitive powerlifting at institute-level events.

Active **NSO Shot Put athlete**, representing IIT Hyderabad in inter-institute and campus-level athletics competitions.

Gym Coordinator: Coordinated gym operations and student participation in fitness and strength-training activities.

Won **Gold in Shot Put** at the **Freshers' Competition**, representing strong performance in athletics.

Secured **Silver Overall in Powerlifting** at **Diesta (Inter-Department Competition)**, including **Gold in Deadlift**.
