PROJECTS

SkillProbe AI | React, FastAPI, Python, Ollama, ChromaDB, Redis

- **Engineered** an AI-powered mock interview platform that analyzes resumes and generates personalized technical questions based on candidates' skills, projects, and experience.
- **Built a RAG pipeline** using PyPDFLoader, text chunking, HuggingFace embeddings, and ChromaDB to retrieve relevant resume context for grounded question generation.
- **Developed adaptive interview logic** with LangChain and Llama 3.1 to dynamically adjust question topics and difficulty based on candidate responses.
- **Implemented an LLM-based evaluation pipeline** to assess technical accuracy, communication, and problem-solving, generating personalized performance reports and recommendations.
- **Integrated Redis** as an in-memory session store with TTL-based expiration to manage interview questions, responses, evaluations, and active interview state.

ImgX - AI Image Generation Platform | React.js, Node.js, Express.js, MongoDB, ClipDrop API

- Engineered a **full-stack AI image generation platform** that converts natural-language prompts into AI-generated images.
- Integrated the **ClipDrop API** to build a seamless frontend-to-backend image generation and delivery workflow.
- Implemented **JWT-based authentication and credit-based access control** to securely manage user sessions and resource usage.
- Developed **RESTful APIs** with request validation, error handling, and image processing/optimization for reliable application performance.

CollabX - Collaborative Coding & Video Interview Platform | React.js, Express.js, Socket.IO, WebRTC

- Engineered a full-stack collaborative interview platform enabling **real-time code collaboration and peer-to-peer audio/video communication**.

- Implemented **low-latency code synchronization** using Socket.IO with room-based event broadcasting for multiple participants.
- Built a **WebRTC signaling layer** with STUN-based NAT traversal to establish direct peer-to-peer video and audio connections.
- Developed **OTP-based email authentication and JWT authorization**, including protected routes and secure session handling.
- Integrated **Monaco Editor** to provide a VS Code-like coding environment with a responsive collaborative interface.

WORK EXPERIENCE

Events Coordinator, Inter-IIT Events

- Coordinated **logistics, scheduling, and participant management** for large-scale inter-collegiate sporting events.
- Managed communication between **teams, officials, organizers, and support staff** to ensure smooth event operations.
- Assisted with **event planning, scheduling,venue coordination,and on-ground execution** across multiple sporting activities.

EXTRACURRICULAR
