EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	9.04
Narayana Junior College	Class XII (Telangana State Board)	2015	92.00%
P. Obul Reddy Public School	Class X (Central Board of Secondary Education)	2013	9.00%

SCHOLASTIC ACHIEVEMENTS

Academic Excellence Awardee

Received Academic Excellence award for best performing student of the Batch of Techno Entrepreneurship by Director of IIT Hyderabad, Dr. Murthy

POSITIONS OF RESPONSIBILITY

Finance Head, Sunshine (The Counselling Cell) IIT Hyderabad

- Managed budgeting and financial planning for Sunshine's peer-counselling and mental-health initiatives and events

Head of Vendor Management and Finance

Led vendor partnerships, financial planning, budgeting, and procurement operations, ensuring efficient resource allocation and seamless execution of MSME Tech Connect 2026.

Fest Organizer, Ekatva

- Organized a one-day fest for 300+ IITM BS students, coordinating logistics, activities, and schedule adjustments in real time

Mentor, Tongali Overseas Entry Program

- Guided an assigned Japanese student in adapting their startup idea to the Indian market and preparing their pitch; won the competition

PROJECTS

Estimation of Directed Neural Connections via Granger Causality & Structural Track Analysis

Research Project, Dept. of Entrepreneurship and Management, IITH

- Built the complete code pipeline and analysis for a research paper (currently unpublished) estimating directed neuron-to-neuron connectivity from calcium imaging data using Granger Causality, without relying on training data

- Designed a pipeline solving segmentation and functional-inference sub-problems to derive directed adjacency matrices representing causal influence between neurons

- Iteratively refined the model across multiple faculty review cycles, incorporating both structured and functional connectivity requirements

SmartPrep

- Built and deployed a Python-based web platform converting previous-year PDF question papers into structured, dynamic practice tests

for IITM BS students

- Identified the core pain point of readily available answer keys discouraging genuine self-testing, and designed the platform to address it

directly

- Scaled to 9,000+ users over 2 years by iterating on the product based on direct user feedback

Influencer Engagement and Sponsorship Coordination Platform

- Developed a web-based platform using Flask, HTML Jinja2 and SQLAlchemy to connect sponsors with influencers, enabling

seamless advertisement of products/services and providing influencers with monetary benefits.

Real/Fake Face detection using Machine Learning

Created an Application using Python which can detect a face is either real or fake (using a picture from mobile/PC or anything), not letting proxy for attendance using facial recognition using scikit learn.

SKILLS

Programming & Web - Python, SQL, JavaScript, HTML, CSS, VueJS, C, C++, R

Frameworks & Tools - Flask, Streamlit, Jupyter, VS Code, Bootstrap, Jinja, PDFMiner, PowerBI, Orange, Figma

RELEVANT COURSES

Relevant Coursework: Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks, Computer Architecture, C/C++, Python Programming, Software Engineering, Compilers, Parallel & Concurrent Programming
