EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2028	6.18
New Vision Junior College	Class XII (Telangana Board)	2024	96.20%
New Era School	Class X (Telangana Board)	2022	9.80%

RELEVANT COURSES

Computer Science: Data Structures and Applications, Algorithms, Operating Systems, Theory of Computation, Compilers, Database Systems, Computer Architecture.

Artificial Intelligence, Statistics & Engineering: Applied Statistics, Bayesian Inference, Predictive Modelling, Time Series Analysis, Mathematics for Machine Learning, Introduction to Artificial Intelligence, Convex Optimization, Probability in Finance, Linear Systems and Signal Processing.

Mathematics: Probability Theory, Number Theory, Combinatorics and Graph Theory, Differential Equations, Metric Spaces, Groups and Rings, Linear Algebra, Calculus, Numerical Analysis, Real Analysis, Functional Analysis.

SKILLS

C++, C, Java(basic) , Data Structures & Algorithms, OOP, Functional Programming, Python, Postgresql, SQL, DBMS, NoSQL, Machine Learning(basic), Git, Linux, Docker

PROJECTS

[Data Structures and Applications Lab] (BK Trees) Git:

- Implemented a **BK Tree (Burkhard-Keller Tree)** for efficient approximate string matching using edit distance metrics
- Designed and executed search algorithms to retrieve near-matching strings, optimizing query performance in metric spaces
- Applied concepts of trees, recursion, and dynamic programming (Levenshtein distance) using C++/Python in a structured lab setting.]

[Solar PV Plant Performance Monitoring & Loss Diagnostics] | (Python, Pandas, NumPy, Streamlit, Git) Git:

- Developed a data analytics pipeline for monitoring solar plant performance using SCADA data.
- Compared actual vs. expected generation and analyzed plant availability, performance ratio and capacity factor.
- Implemented diagnostics to identify generation losses and abnormal plant operating conditions.
- Built a Streamlit dashboard for interactive performance monitoring and reporting.

[DBMS Course Project](PostgreSQL)

- Built and managed a relational database using **PostgreSQL**.
- Imported datasets, executed SQL scripts, and performed data analysis using **SQL queries** (SELECT, JOIN, COUNT, ORDER BY, LIMIT).
- Utilized **psql** and **pgAdmin** for database administration and query execution.

[Applied Statistics Project -1]

- Analyzed real-world datasets by constructing frequency tables, bar diagrams, frequency polygons, pie charts, histograms, and box plots
- Converted ungrouped data into grouped distributions and visualized statistical patterns using Python (Matplotlib) / Excel

- Interpreted data distributions and variability to extract meaningful insights from multiple datasets

[Applied Statistics Project -2]

- Explored sampling distributions, point estimation, and interval estimation using three independent real-world datasets
- Computed estimators and confidence intervals to approximate population parameters and assess statistical reliability
- Compared estimation methods and analyzed variability across samples to strengthen inferential reasoning

POSITIONS OF RESPONSIBILITY

Internship Coordinator | Internship Cell, Office of Career Services (OCS), IIT Hyderabad *(2026-27)*

- Coordinate between **students, recruiters, and OCS teams** to streamline internship processes and ensure effective stakeholder communication.
- Support **company outreach, internship drives, and recruitment operations**, coordinating timelines, registrations, shortlisting, and student communication.
- Manage student queries and internship data while identifying **process gaps and improving engagement and participation** across campus.

PR & Networking Head | Media Council, IIT Hyderabad *(2026-27)*

- Leading a team to manage public relations and networking initiatives for institute-wide media activities.
- Building collaborations with campus bodies, clubs, and external organizations.
- Overseeing event promotions, outreach campaigns, and communication strategies to maximize engagement and visibility.
- Coordinating with multiple stakeholders to ensure seamless execution of Media Council projects.

Abhyanth Core Team - PR & Sponsorships | IIT Hyderabad

- Core team member for **Abhyanth, IITH's first-ever annual sports fest**, contributing to the planning and execution of its inaugural edition.
- **Secured 1.8 lakh+ in sponsorships** from multiple companies through sponsor outreach, pitching, negotiations, and follow-ups.
- Built and managed **corporate partnerships**, coordinating sponsor deliverables and brand visibility throughout the fest.

Esports Core Member| Glitch, IIT Hyderabad *(2025-2026)*

- Organized and coordinated esports tournaments and gaming events.
- Managed participant engagement, event logistics, and team coordination.
- Contributed to community growth through competitive gaming initiatives.

Sports Coordinator (Volleyball) | IITH Sports Council *(2025-26)*

- Led coordination across multiple student groups to organize volleyball events and fests, improving participation and team engagement
- Secured COSCO sponsorship through structured outreach and negotiation, enhancing event resources and execution quality.
- Demonstrated leadership, initiative, and problem-solving by managing logistics, resolving coordination challenges, and ensuring smooth event delivery.

EXTRACURRICULAR

Represented IIT Hyderabad as a member of the **Volleyball team** at the Inter IIT Sports Meet (2024 & 2025).
