EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2028	8.49
Sri Chaitanya Techno School Marathahalli Bangalore KK	Class XII (CBSE)	2024	95.60%
Sri Chaitanya Techno School Ramamurthy Nagar Blore KK	Class X (CBSE)	2022	97.60%

WORK EXPERIENCE

Founder | AI Automation Agency

- **Built a revenue-generating AI automation agency from the ground up**, reaching **10K+ MRR** by delivering **AI-powered full-stack applications for local businesses**.
- **Led 10+ client discovery conversations across 2 live deployments**, translating business workflows and pain points into clear product requirements and scalable technical solutions.
- **Diagnosed and eliminated critical technical bottlenecks** across client products, improving system reliability and streamlining fragmented deployment and payment workflows.

PROJECTS

PassionPages.AI: Multimodal AI Learning Platform

- **Built and commercialized a multimodal AI learning platform**, generating **10K+ in MRR** by transforming PDFs and raw study material into summaries, flashcards, quizzes, mind maps, and presentation decks.
- **Engineered a multi-model AI architecture** that routes generation across **5+ frontier and open-source LLMs**, enabling flexible experimentation and optimized outputs for different learning tasks.
- **Engineered end-to-end AI pipelines** that convert unstructured content into structured, interactive learning experiences, taking the product from **concept to production and multiple paying clients**.

Outreach.AI: Autonomous AI Outreach Platform

- **Built an autonomous AI outreach platform**, reducing manual campaign preparation by **~60-70%** through automated ICP generation, lead qualification, and personalized email generation.
- **Automated the end-to-end outreach lifecycle**, orchestrating lead discovery, enrichment, personalized sequencing, follow-ups, and reply tracking through a unified workflow.
- **Built fact-grounded LLM pipelines with 15+ guardrails**, generating personalized outreach while preventing hallucinated or non-verifiable claims.

Real-Time Fraud Detection Pipeline: Streaming Risk Scoring System

- **Architected a real-time fraud detection pipeline** using **Kafka, FastAPI, and XGBoost**, replacing batch review with live transaction scoring.
- **Achieved 99.9% precision** on **1M+ PaySim transactions**, validating the model at production-scale data volume.
- **Built calibrated risk scoring and audit pipelines**, returning fraud probabilities and persisting flagged transactions to **PostgreSQL** for review and compliance.

SKILLS

- **AI, Data & Technical:** Python, SQL, Machine Learning, Generative AI, LLMs, LangChain, LangGraph, FastAPI, NumPy, Pandas, Power BI, MS Excel, Mixpanel (Analytics)
- **Business & Consulting:** Stakeholder Engagement, Workflow Automation, Market Research, Strategic Analysis, Cross-Functional Collaboration, Requirements Gathering, PRD Writing, DCF Valuation

POSITIONS OF RESPONSIBILITY

Sunshine Buddy | Sunshine

- **Organized 3 well-being meetups as a Sunshine Buddy**, engaging **100+ students across multiple departments** through interactive games and peer-support sessions, fostering student interaction and promoting mental well-being.
- **Led mental health awareness campaigns**, driving conversations around student well-being and encouraging a more open, supportive campus environment.
- **Facilitated peer-support initiatives**, connecting and engaging students through interactive activities and community-building sessions.

RELEVANT COURSES

Probability & Statistics, Elementary Linear Algebra, Calculus I, Calculus II, **Introduction to Statistics**, Introduction to Programming (C, C++), **Introduction to Artificial Intelligence**, **Introduction to Entrepreneurship**

EXTRACURRICULAR

- Secured **5th place** among **23 teams** in **Milan Inter-Hostel GC 2024-25** by conceptualizing and performing a stage play, demonstrating **storytelling, teamwork, creativity, and public speaking**.

- **Partnered with the founding team at FinStocks AI**, a **GradCapital** and **Draper-backed startup**, to tackle inefficient portfolio allocation; **developed a mathematical optimization function** to balance investments across assets under fractional-share constraints, **improving wallet utilization by 20%** and earning recognition from the **Founder & CEO**.
