EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2028	7.85
Narayana Junior College	Class XII (Telangana State Board of Intermediate Education)	2024	96.80%
Trinity High School	Class X (Telangana State Board of Secondary Education)	2022	9.70%

SKILLS

Languages: C++, C, Python, JavaScript, SQL, Bash, HTML5, CSS3

Web: React.js, Node.js, Express.js, Flask, Streamlit, Tailwind CSS, Axios, Bootstrap, Vite, MongoDB

Systems: Linux, Arch Linux, Shell Scripting, systemd, Docker, Git, GitHub, CMake, GDB, SSH

Libraries & Tools: NumPy, Pandas, Matplotlib, Scikit-learn, Postman, VS Code, PyCharm, Markdown, npm, JSON, Figma

PROJECTS

Movie Recommendation System | GitHub

- **Built** a **content-based movie recommender** by transforming movie metadata into feature vectors using **NLP preprocessing**, **CountVectorizer**, and **Cosine Similarity**, enabling similarity-based recommendations across **4,800+ movies**.
- **Engineered** a complete **data preprocessing pipeline** to extract and combine features from **genres, overview, keywords, cast, and director**, improving recommendation quality through feature engineering.
- **Implemented** an intuitive **Streamlit** web application for real-time movie discovery, allowing users to explore the **Top-5 most similar movies** with dynamically displayed movie posters.
- **Optimized** application responsiveness using **precomputed similarity matrices** and **cached data loading**, enabling fast recommendations with minimal computation at runtime.
- **Tech Stack:** Python, Pandas, NumPy, Scikit-learn, Streamlit

FCC IIT Hyderabad Website | **Frontend Developer** | GitHub | Website

- **Redesigned** and **rebuilt** the official **Finance & Consulting Club (FCC) IIT Hyderabad** website from scratch, delivering a modern, responsive interface with a strong focus on **UI/UX**, maintainability, and performance.
- **Developed** reusable and interactive components using **React**, **Vite**, **Tailwind CSS**, **ShadCN UI**, and **GSAP**, creating a fast and engaging user experience.
- **Optimized** asset loading, rendering, and animations to improve **page speed**, responsiveness, and overall user experience while following modern frontend best practices.
- **Architected** reusable modules for **events**, **teams**, **newsletters**, and **resources**, streamlining future content updates and reducing maintenance effort.

Concurrent Producer-Consumer System | GitHub

- Built a **concurrent Producer-Consumer system** in **C** using **System V Shared Memory** and **System V Semaphores** for efficient **Inter-Process Communication (IPC)** and process synchronization.
- Implemented a **bounded circular buffer** with **two producer processes** and **one consumer process**, ensuring **mutual exclusion**, preventing **race conditions**, and enabling safe concurrent data exchange.
- Applied core **Operating Systems** concepts, including **Concurrency**, **Process Synchronization**, **IPC**, and **Shared Memory Management**.
- **Tech Stack:** C, Linux, System V Shared Memory, System V Semaphores

RELEVANT COURSES

Core Courses: Introduction to Programming, Algorithms, Data Structures and their Applications, Operating Systems, Theory of Computation, Discrete Mathematics for Computer Science

Math Courses: Calculus I, Calculus II, Probability and Random Variables, Intro to Statistics, Elementary Linear Algebra, Differential Equations, Complex Variables

POSITIONS OF RESPONSIBILITY

Web Head, Finance & Consulting Club (FCC), IIT Hyderabad

- Developed and maintained the official FCC website, focusing on responsive design, performance, and maintainability.
- Worked with multiple club teams to implement new features, deploy updates, and support the club's online initiatives.

Design Coordinator, EML Club, IIT Hyderabad

- Designed the UI/UX for the EML Club website, emphasizing responsive design, intuitive navigation, and usability.
- Developed reusable templates for posts, banners, and event promotions to ensure consistent visual branding.

Web Coordinator, Finance & Consulting Club (FCC), IIT Hyderabad

- Redesigned the official FCC website with a modern, responsive interface focused on usability and maintainability.
- Built reusable UI components, streamlined website updates, and collaborated with club teams to deliver new features.

Events Coordinator, 58th Inter IIT Sports Meet 2025, IIT Hyderabad

- Coordinated football events for 5,000+ participants at the 58th Inter-IIT Sports Meet 2025 through effective planning, logistics, and cross-team collaboration.

Events Coordinator, Entrepreneurship Cell (E-Cell), IIT Hyderabad

- Coordinated the planning and execution of entrepreneurship events, managing logistics, timelines, and cross-functional collaboration to ensure seamless event delivery.
