WORK EXPERIENCE

Product Management Intern | MSN Laboratories

- Conducted strategic portfolio assessments across **50+ Indian and global pharmaceutical companies**, analyzing patent expiries, competitive landscapes, market attractiveness, and pricing to inform oncology portfolio expansion.
- Developed **5+ executive-ready** product monographs and strategy presentations, translating clinical and commercial evidence into data-driven recommendations for portfolio prioritization and **Go-To-Market** planning.

PROJECTS

Cloud Security & Compliance Assessment Accelerator

- Built a reusable compliance accelerator consolidating **100+ controls** across **5 cloud security frameworks** (SOC 2, ISO 27001, CSA CCM, CIS, NIST CSF 2.0) into a single unified assessment, cutting duplicate control testing by **70-80%**.
- Automated environment-specific scoping across **13 control domains**, fully replacing manual checklists.
- Built a deterministic scoring engine as the single source of truth, risk-ranking control gaps for remediation, with a grounded AI Assistant layered on top that drafts clear guidance and explains findings without fabricating controls or scores.

Building a Digital Mental Health Platform for Underserved Population | E-Cell, IIT Hyderabad

- Analyzed India's mental healthcare landscape, identifying a critical nationwide gap impacting **150M+ people**, driven by an **80% rural treatment gap** and a severely low psychiatrist density of just **0.3 per 100,000 population**.
- Targeted India's **$20B mental healthcare market** with an affordable **50-250/month** hybrid pricing model.
- Built a multilingual, low-data PWA with AI-based screening, offline CBT tools, peer forums, and telecounseling.

AI-Powered Corporate Credit Decisioning Engine | Intelli-Credit Hackathon, Vivriti Capitals

- Analyzed India's corporate lending workflow, mapping the complete end-to-end underwriting process and identifying bottlenecks that increased credit appraisal timelines to **3-4 weeks** across financial, legal, and compliance reviews.
- Developed an **AI-powered credit risk assessment engine** integrating **13+ financial, legal, governance, and compliance indicators** into a structured scoring framework for standardized borrower evaluation and risk prioritization.
- Automated **Credit Appraisal Memo (CAM)** generation in **<10 minutes** with **100% evidence traceability**, leveraging LLM-based document synthesis to reduce manual effort, improve auditability, and accelerate credit decision-making.
