## WORK EXPERIENCE

**2D & 3D Designer - Intern**

Autopilot Inc

Known as "The Jack of All Trades," I worked closely with the founder, experimenting with asset development while also serving as a 2D designer for static posts.

**Creative Head | 3d Artist | Game Designer**

Zealot Games (A product of Epsilon Creative Agency)

As the Creative Head, I oversaw the ideation process for our games, including themes, possibilities, and the quality of all assets. This role involved close collaboration with developers, significantly enhancing my game knowledge.

**3D Generalist**

Under 25 Universe

Hosting an event that attracted at least 100,000 students and audience members was a highlight of my career. My role varied, utilizing my skills in both 3D and 2D static design. Working there for two months provided immense exposure, and I was thrilled to meet some of the best designers in the industry.

**Creative Head I Visual Effects Artist**

PaperPlane

Working closely with the co-founders and artists has been an extraordinary experience. My primary role involves producing hyper-realistic CGI for various brands. Additionally, I focus on predicting future trends and actively collaborating with AI to enhance our creative processes.

**Design Lead**

Finstocks.ai

Collaborated closely with the founder to translate the company's vision into a cohesive product experience. Applied user-centered design principles and industry best practices to elevate the platform's usability, visual quality, and overall professionalism. Also contributed to the creative direction of marketing campaigns, helping deliver high-impact content that generated strong audience engagement and traction.

## PROJECTS

**PIXELOTECH - Logo Design**

Designed a distinctive brand identity that reflected PIXELOTECH's vision and values. Developed multiple identity concepts, refined the visual language through an iterative design process, and delivered a versatile logo system optimized for both digital and print applications.

**United Colors of Benetton - AR experience**

Designed and developed an interactive AR experience for United Colors of Benetton. The project was selected for exhibition at a flagship event in Mumbai, coinciding with the launch of a new collection inspired by the showcased concept.

## AWARDS & RECOGNITIONS

**Guest Speaker**

Arena Animation

Delivered a VFX masterclass for 1,500+ students, covering industry workflows, 3D pipelines, and visual effects production.

**Gold Medal - Milan 2025**

Awarded **Gold Medal** in the **48-Hour Animation Film Challenge** at Milan 2025, IIT Hyderabad.
