EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2028	7.90
SRIVISWA JUNIOR COLLEGE	Class XII (SSC)	2024	87.40%
VISWABHARATI HIGH SCHOOL	Class X (SSC)	2022	96.17%

POSITIONS OF RESPONSIBILITY

Mess Secretary, IIT Hyderabad

- Owned end-to-end budget planning and allocation of ~1 crore for mess operations, balancing cost efficiency with service quality across two mess facilities serving 5,000+ students, while tracking expenses to prevent budget overruns
- Served as the primary point of contact between 5,000+ students, the Hostel Administration Director, and catering vendors, resolving conflicts and translating stakeholder needs into practical, actionable operational decisions
- Resolved day-to-day student and vendor issues related to food quality, billing discrepancies, and service standards, ensuring smooth and consistent mess operations across both facilities throughout the academic year

Head, Media & Public Relations - Diesta

- Headed the Media & PR vertical for Diesta, managing end-to-end event planning and promotion within a 7-day timeline through quick decision-making, efficient execution, and proactive coordination.
- Collaborated closely with the Media & PR team and the EBSB Club, enabling seamless communication, rapid issue resolution, and coordinated promotional campaigns that significantly expanded the event's reach.

Sponsorship Head, Abyanth (Sports Fest), IIT Hyderabad

- Secured ~20 lakh in sponsorship funding from 10+ brands for Abyanth, IIT Hyderabad's flagship 3-day sports fest, supporting prize money, logistics, and event infrastructure, ensuring seamless event operations throughout.
- Managed end-to-end sponsorship operations for 10+ corporate sponsors, coordinating stakeholder relationships and on-ground deliverables to ensure 100% fulfillment of branding commitments during the 3-day event.

SKILLS

Technical Skills: Programming(C,C++), Python(NumPy, Matplotlib),MATLAB, MySQL

Tools and Software: SolidEdge, Canva, excel (AI-integrated-numerous.ai), Power point, Data driven decision making

Soft Skills: Leadership, Teamwork, Communication, Networking

PROJECTS

Mess Registration System

- Developed and deployed a web-based **Mess Registration System** for the IITH community, streamlining meal registration and management for **5,000+ students** with a user-friendly interface and secure authentication.
- Designed and implemented features including student registration, meal selection, automated record management, and an admin dashboard, improving operational efficiency and reducing manual processing.

EduRap - Student Learning Platform

- **Built a comprehensive student learning platform** featuring virtual study rooms, collaborative note-taking, PDF management, automated flashcard generation, and a Stack Overflow-style doubts forum, providing students with an all-in-one workspace for collaborative learning and academic discussions.
- **Developed an AI-free flashcard generation engine** using JavaScript-based NLP techniques, including sentence parsing, keyword extraction, and stop-word filtering, to generate **Q&A, fill-in-the-blank, and MCQ flashcards** from PDF content. Integrated **PDF.js** for document rendering and **IndexedDB** for text extraction, caching, and search.

- **Implemented an offline-first architecture** using **IndexedDB** and **localStorage** to persist notes, discussions, and study materials across sessions. Designed dynamic study rooms with simulated real time features such as live typing indicators, member presence updates, and unread message counts to enhance the collaborative learning experience.

Food Delivery Web Application(in progress)

- **Developed a responsive food delivery web application** featuring restaurant categorization, dynamic menu rendering, user authentication, dark mode, and intuitive navigation using **HTML, CSS, and JavaScript**
- **Implemented a client-side shopping cart and checkout system** with real-time quantity updates, automatic price calculation, delivery fee handling, coupon support framework, and order placement functionality to deliver a seamless user experience.

RELEVANT COURSES

Math Electives: Calculus I, Calculus II, Elementary Linear Algebra, Differential Equations, Numerical Methods, Applied Mathematics in Chemical Engineering (Python: NumPy, Pandas, Matplotlib; Statistics & Probability)

AI courses : Introduction to Programming(c), Introduction to Artificial Intelligence, AI/ML Tool Chains for Chemical Engineers, Machine Learning Fundamentals, Multi-Agent Systems (MAS)

others: communication skills, Introduction to Entrepreneurship

EXTRACURRICULAR

Represented the college as an **NSO Cricket Player**, demonstrating teamwork, discipline, and leadership.

Passionate about fitness and fashion, maintaining a disciplined gym routine while staying updated with modern styling and grooming trends

Volunteered as an **offline tutor**, teaching and mentoring school students to strengthen their academic understanding and communication skills.
