EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2028	7.67
LAKSHYA SCHOOL, SAMALKOTA MANDAL EG DIST, AP	Class XII (CBSE)	2023	83.00%
ADITYA(EM) HIGH SCHOOL, GANGARAJU NAGAR, EAST GODAVARI DIST.	Class X (SSC)	2021	9.80%

WORK EXPERIENCE

Capital Market Analyst | Tradeshala | *June 2024 - August 2024*

- Reduced a potential **~$2,000** loss to just **~$200** (a **90%** cut) by managing downside risk on a fundamentals-driven gold position that reversed sharply to a **3**-month low of **~$2,286-$2,298/oz** after an unexpected China reserve-buying halt
- Informed trading recommendations across the client account by combining disciplined risk protocols (stop-loss, take-profit) with multi-factor analysis of price movements, macroeconomic indicators, and geopolitical developments
- Retained post-internship for **premium MT5** account management -- recognition of sustained analytical performance

SCHOLASTIC ACHIEVEMENTS

Amex Strategy Case Competition 2026 - Top **6-7%** of 17,600 participants nationally; leaderboard-score **(0.91/1.0)**

Tradeshala, Capital Market Analyst - Rank #**1** in cohort, **298%** ROI, **90%** evaluation score

PROJECTS

Fraud Detection Risk-Threshold Optimization -- Independent Case Study (Kaggle Dataset)

- Balanced **~$809K** in prevented fraud against just **~$24K** in customer-friction cost across recall and precision curves, via a dollar-denominated cost-tradeoff model translating a technical metric into a business call across **1.3M+** transactions
- Improved fraud recall from **89.7%** to **98.4%** at a fixed friction budget by diagnosing a severe class-imbalance issue (**0.58%** fraud rate) that made standard accuracy misleading, and reframing evaluation around **PR-AUC (0.95** vs. **0.37** baseline**)**
- Caught and fixed a data-leakage bug, confirming the **$809K** recommendation held post-correction(**PR-AUC 0.9512 to 0.9488**), then shipped a live interactive dashboard (GitHub Pages) for stakeholders

PixelPay Merchant Growth -- Product Simulation (Finlatics)

- Identified reconciliation visibility and fee transparency as the primary drivers of merchant churn through **3** SMB merchant interviews, translating insights into a **North Star metric** for Day-End Summary adoption.
- Defined the product strategy for **Day-End Summary**, establishing a metric tree and targeting **D30 retention** growth from **20%** to **35%** while reducing onboarding drop-offs from **70% to 40%**, addressing the reconciliation gap from discovery
- Prioritized a 6-feature roadmap using **RICE and Kano** (Day-End Summary: **RICE 27,000**), recommending it over a **Rs. 40L** enterprise request to protect Q3 goals, defending the decision with quantified trade-offs for stakeholders

Rewards & Retention Strategy -- Independent Extension, Amex Strategy Case Competition Dataset

- Segmented **500K** customers into **4** behavioral cohorts, identifying a **103,760**-customer at-risk segment (**$341.6M** annual spend) as the top retention priority using interpretable rule-based thresholds over black-box clustering
- Prevented a flawed segmentation by diagnosing a critical data-integrity issue (spend fields correlating at only **0.10**) and splitting "cancellation" signals into two behaviorally opposite sub-groups (**+0.58** vs. **-0.18** risk correlation)
- Isolated a **5,799**-customer**, $19.8M** overlap of flight-risk, reward-hoarding customers within a **$163.5M**

unredeemed-rewards liability, and recommended 4 differentiated interventions instead of a one-size-fits-all offer

POSITION OF RESPONSIBILITY

Head of Management | Institute Technical Council, IIT Hyderabad | *June 2026 - Present*

- Unified Sponsorship, Operations, and Event Management across **13** clubs (**32** club heads**, 161+** core members) in **45** days, replacing club-by-club ownership with one system -- leading the council's **0-to-1** operational transformation
- Built a structure with **no institute precedent** to date, by establishing a unified operating framework to support all **13** clubs**'** hackathons, workshops, and flagship events across the technical ecosystem, replacing scattered, club-specific execution
- Structured clear ownership lines across Design, Branding, Sponsorship, PR, and Event Scheduling by directly leading a **10-member** core team, with direct reporting accountability to the Technical Affairs Secretary and FIC on all initiatives

Co-Head, Operations & Logistics | 58th Inter IIT Sports Meet | *Nov 2025 - Dec 2025*

- Supported **4,500-5,000** participants across all venues by coordinating **158+** matches across 5 major sports and 17 total sports over **40** days, with a lean, well-structured **21-**person team spanning all event coordinators and associates
- Cut resolution time to under **15 minutes** despite recurring coordinator shortages on **12-14** peak-load days, through agile, real-time resource reallocation and strong cross-functional stakeholder alignment across all venue, medical, and event teams
- Hit a pre-defined **zero-complaint OKR** across food, accommodation, sports, and medical -- verified via post-event interviews

Coordinator, Finance & Logistics | EBSB Club | *July 2025 - April 2026*

- Cut approval turnaround time by **50%** across **6** monthly events by fully redesigning the manual approval process
- Grew total participation to **6,000+** members by owning budget allocation for **6** events, managing **4.6L** (up from **3.8L**)
- Prevented a major service failure at peak event time by leading real-time risk mitigation during a live vendor crisis

SKILLS

Product: Prioritization (RICE, Kano),Product Strategy & North Star Metrics, JTBD Research, A/B Testing, Business Case Development, JTBD Research, Figma (Basics), product thinking and consumer empathy

Technical: SQL, Excel, Git, Python (pandas, scikit-learn), PowerPoint, MS Office

Collaboration & Communication: Cross-Functional Leadership, Structured Communication, Resource Allocation & Trade-off Decision-Making, Real-Time Problem-Solving, Stakeholder Engagement
