EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2028	7.83
Jawaharlal Nehru School	Class XII (cbse)	2024	65.80%
Jawaharlal Nehru School	Class X (cbse)	2022	69.16%

SKILLS

3D

- Blender
- Adobe Substance 3D Painter
- Daz Studio

Motion Graphics & Animation

- Adobe After Effects
- Adobe Animate
- OpenToonz

Graphic Design & Illustration

- Adobe Photoshop
- Adobe Illustrator
- FireAlpaca

Game Development

- Unity
- Basic C#

Design

- 3D Modeling
- Hard Surface Modeling
- Low-poly Modeling
- UV Mapping
- PBR Texturing
- Lighting
- Rendering
- Product Visualization
- Environment Design
- Storyboarding
- Character Design
- Graphic Design
- Motion Graphics
- Basic Video Editing

RELEVANT COURSES

Animation & Film

- Basic Animation
- Character Design
- Script Writing
- Storyboarding
- Film Making
- Elements of Film Making
- Film Appreciation
- Sound Design

Design

- Elements of Design
- Principles of Design
- Evolution of Design
- Design Culture and Society
- Branding and Identity Design
- Basic Graphic Design
- Basic Typography
- Illustrations and Drawing
- Semiotics

Product & Industrial Design

- Basic Product Design
- Furniture Design
- Nature and Form
- Materials and Design
- Introduction to Ergonomics
- Universal Design
- Design for Sustainability

Digital Design & Technology

- Computer Aided Design
- Programming for Designers
- AI in Design
- Data and Information Visualization
- Basic Interaction Design
- Digital Fabrication
- Fabrication Lab I
- Game Design
- Basic Photography

PROJECTS

Apocalypse City Environment

- Designed a post-apocalyptic urban environment in Blender.
- Created modular buildings, props, lighting, and atmospheric composition.
- Focused on environmental storytelling and cinematic presentation.

Train Interior Concept

- Reimagined an abandoned train carriage as a compact living space.
- Modeled furniture, storage solutions, and interior details.
- Explored adaptive reuse and functional space planning.

Backrooms Environment

- Recreated the iconic Backrooms atmosphere using realistic lighting and modular assets.
- Emphasized mood, scale, and environmental storytelling.

Medieval Knight

- Modeled a stylized medieval knight.
- Focused on hard-surface modeling and material creation.

Sci-Fi Bike

- Designed and modeled a futuristic motorcycle.
- Applied hard-surface modeling techniques and custom materials.

Star Wars-inspired Building

- Created a sci-fi architectural concept inspired by futuristic design language.
- Focused on modular structures and cinematic lighting.

Character Animation - Walk Cycle, Jump into Water

- Created a complete walk cycle demonstrating body mechanics, weight distribution, and timing principles.
- Animated a character performing a jump into water with attention to anticipation, impact, and follow-through.

3D Modeling & Digital Fabrication

- Designed a Gundam robot model for 3D printing.
- Prepared printable geometry and successfully fabricated the model.

Club 2D Animation - Samurai Fight

- Collaborated on an animated samurai fight sequence.
- Contributed to 2D animation and scene planning
