EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	7.61
Mothers public school bareilly	Class XII (CBSE)	2022	93.00%
Mothers public school bareilly	Class X (CBSE)	2020	85.00%

INTERNSHIP EXPERIENCE

Product & Growth Strategy Intern -- Tayog | *September 2024 - August 2025*

- Worked with the **Growth & Product Strategy Team** on **product strategy, user research, and feature prioritization**.
- Analyzed **user feedback and product insights** to identify opportunities for product improvement and growth.
- Contributed to **product planning and execution**, collaborating with cross-functional teams on key initiatives.

AI/Full-Stack Engineering Intern -- Biosimilar Sciences India LLP | *June 2026 - July 2026*

- Built **usage analytics APIs and dashboard features** for OB-One, covering **sessions, active users, departments, product lines, heatmaps, feature rankings, AI insights**, and CSV exports.
- Implemented **secure SSO profile enrichment** and **encrypted tracking-context tokens** using **Microsoft Graph**, integrating changes across authentication and application services.
- Enhanced **admin onboarding and authentication workflows** with group-based user creation, temporary passwords, duplicate-email handling, **first-login password reset enforcement**, audit logging, and automated tests.

PROJECTS

PlanShift | *Next.js, TypeScript, PostgreSQL, Prisma, Recharts, Playwright, Docker*

- Built a **SaaS pricing simulation platform** enabling Product Managers to evaluate **ARR impact, churn risk, customer disruption**, and migration strategies.
- Designed workflows for **grandfathering, upgrades, and migrations** across customer segments and renewal timelines.
- Developed **interactive dashboards and decision reports** with automated testing using Vitest, Playwright, and Docker.

TaskZen | *React, TypeScript, Express, SQL, Drizzle ORM, Recharts, Tailwind CSS*

- Built a **productivity and task analytics platform** with **task management, Kanban workflows, Pomodoro timer, activity tracking**, and analytics dashboards.
- Designed workflows for **task creation, priority/status tracking, filtering, search, due dates**, and drag-and-drop execution.
- Implemented **completion trends, time tracking, productivity insights, session history**, authentication, responsive UI, and SQLite storage.

Agentic RAG Chatbot | *Python, Flask, ChromaDB, FAISS, Hugging Face, OpenAI, Groq*

- Built a **document-grounded RAG application** supporting **PDF, TXT, CSV, and Markdown** documents.
- Implemented a **6-step ingestion pipeline** covering loading, normalization, deduplication, chunking, embedding, and vector storage.
- Added **ChromaDB and FAISS retrieval**, conversation memory, **cited responses**, no-context fallback, and modular testing across ingestion and retrieval workflows.

SKILLS

Product Management: Product Strategy, Roadmapping, Feature Prioritization, User Research, Customer Journey Mapping, PRD Writing, Requirement Gathering, User Stories, MVP Planning

Product Analytics: KPI Tracking, Funnel Analysis, Cohort Analysis, User Segmentation, A/B Testing, Retention Analysis, Dashboarding, Data-Driven Decision Making

Technical Skills: SQL, Python, Excel, Data Analysis, API Understanding, System Design Basics, AI/ML Product Understanding

Tools: Jira, Bitbucket, Git, Figma, Notion, Google Sheets, Microsoft Excel, Vercel

AI/Product Areas: AI SaaS Products, RAG Applications, Workflow Automation, Prompt Engineering, LLM Evaluation, Recommendation Systems

Business & Strategy: Market Research, Competitive Analysis, Go-to-Market Basics, Pricing Strategy, Risk Analysis, Stakeholder Communication

SCHOLASTIC ACHIEVEMENTS

FFE Scholar, 2023: Selected through a **competitive interview process** under the Foundation for Excellence scholarship based on **merit**.

FinShield Hackathon 2025 -- IIT Hyderabad: Finalist for developing a **credit risk management model** using **alternative financial data**.

DSA: Solved **800+ problems** across competitive programming and coding platforms.

POSITIONS OF RESPONSIBILITY

Volunteer - Office of Career Services (OCS), IIT Hyderabad

- Assisted in organizing placement and internship drives by managing interview schedules, student help desks, and recruiter-candidate communication.

Event Coordinator - Milan, Annual Cultural Fest

- Coordinated event planning and execution for IIT Hyderabad's annual cultural fest, supporting logistics, communication, and on-ground operations.

RELEVANT COURSES

Product & Business: Business Analytics using Python, Introduction to Entrepreneurship, Innovation Management, Principles of Game Theory

AI & Data: Artificial Intelligence, Foundations of Machine Learning, Probability & Statistics

Software &Systems: Software Engineering, Database Management Systems, Data Structures & Applications, Algorithms

Mathematics: Linear Algebra, Discrete Mathematics
