EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	8.48
Narayana Junior College	Class XII (Telangana State Board of Intermediate Education)	2023	98.70%
St Ann's High School	Class X (Board of Secondary Education, Telangana)	2021	10.00%

WORK EXPERIENCE

Global Labeling Compliance Intern- Amgen, India

- Built a Power-BI decision support solution providing product and country level visibility into global labeling records and Amgen products, enabling instant filtering and document level access across markets.
- Mapped end-to-end labeling workflow across changes, submissions and implementation schedules, surfacing pending actions, delayed submissions and next step requirements to support operational planning
- Tested a rules based English QC tool for validating and regulating labeling documents while leveraging Excel macro automation to streamline repetitive data processing and reporting workflows.

PROJECTS

Olist Fulfillment Risk Monitor

- Analyzed 96,000 delivered orders using SQL, Python to map the customer fulfillment journey and track delivery, order-value, review and repeat-purchase metrics.
- Performed fulfillment bottleneck and root-cause analysis, establishing an 8.11 % baseline late-delivery rate and finding 33.72% and 37.13% late rates for orders with > 10 day seller handling and >14 day carrier transit
- Designed a fulfillment risk workflow using risk scoring, prioritization and intervention queues, achieving 85.9% historical recall and defining A/B testing framework around delivery, fulfillment and customer-satisfaction KPIs

Duolingo Streak Retention Teardown | Product Case Study

- Conducted a PM teardown of Duolingo's streak mechanic using public app store, Trustpilot, and forum reviews as qualitative research, mapped the user journey/funnel to isolate the exact drop-off point and proposed a tiered fix, prioritized by impact vs. risk, with a full A/B experiment design (retention, churn, opt-out rate as metrics).
- Solved an ambiguous product tradeoff between engagement design and user trust using structured, data-driven analysis; built out prioritization, experimentation, an automated monitoring/reporting plan, and a cross-functional execution plan across engineering, design, analytics, and support.

Breast Cancer Relapse Prediction Using Gene Expression Data:

- Applied supervised machine learning to classify relapse outcomes using high - dimensional gene expression data.
- Implemented preprocessing workflows including missing value imputation, feature scaling, and dimensionality reduction.
- Trained and evaluated a Random Forest classifier, interpreted model performance using metrics like F1- score, confusion matrix ,PCA

SKILLS

Technical skills : SQL, Programming(C,C++), Python, R

Tools and Software: PowerBI, PostgreSQL, Microsoft Excel, Solid Edge, Jupyter Notebook, VS Code

Soft Skills: Leadership, analytical thinking, quick learner, teamwork, communication

Product Management Skills: A/B Testing, Product Lifecycle Management, Project Management

RELEVANT COURSES

Computer Science courses: Introduction to Programming, Artificial Intelligence

Maths courses: Calculus, Elementary Linear Algebra, Differential Equations, Probability and Random Variables

Management courses: Fundamentals of Organizational Structure, Introduction to Entrepreneurship

Online Certificate courses: Power BI Desktop for Business Intelligence(Udemy), SQL (Udemy), Machine Learning in Bioinformatics (Udemy), IBM Machine Learning with Python (Coursera), Python for Biologists (Udemy)

POSITION OF RESPONSIBILITY

Head of Finance & Logistics- Elan & nVision IIT Hyderabad:

Lead a team to manage finances, budget planning, merchandise logistics, and ensuring seamless coordination of financial operations across all events for IIT Hyderabad's annual techno-cultural fest.

Culti & Biggies Coordinator- Elan & nVision IIT Hyderabad:

- Actively participated in the domain by supervising cultural competitions during the fest, from event conception to implementation.

EXTRACURRICULAR

- Represented IIT Hyderabad in Dance at the 7th Inter IIT Cultural Meet(Group Dance)
- Silver Medal in duo dance for my hostel in Milan, the Inter-Hostel GC 2025, of IIT Hyderabad.
- Gold Medal in Cricket (girls) in the Inter-Hostel GC 2025, of IIT Hyderabad.
- Silver Medal in Dodgeball (girls) in the Inter-Hostel GC 2024, of IIT Hyderabad
- Represented my department in Cricket and football for Diesta - the Inter-Departmental Championship of IIT Hyderabad.
- Selected twice to represent my school at the State Dance Festival at Ravindra Bharathi; achieved 2nd place and 1st place in successive years.
