EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	8.06
Matoshri Junior College	Class XII (XII State (Maharashtra Board(HSC)))	2023	84.00%
Nirmala Convent High School	Class X (X State (Maharashtra Board(SSC)))	2021	89.40%

WORK EXPERIENCE

Product Management Intern | Country Delight | D2C

- Contributed to an increase in Mandate registrations **by 8.7%** and repeat Mandate transactions **by 3.9%** by authoring **2 PRDs** and shipping **2** retention (trigger-based) & conversion(OT to AP) offers and **2** features across the payment funnel.
- Improved successful Mandate regs **by 6.8%** and repeat transactions by **3.1%** via efficient gateway routing changes through gateway-level analysis across **18** transaction modes, identifying the **top 5** gateways by SR & volume and proposing health-based routing + silent-retry logic alongside CD's cost-priority routing.
- Uncovered a **90%** calendar-first **funnel**, with **57%** of users not visiting PLPs, through **65+** user interviews **(50+ online, 20+ offline)**; ideated **2+ funnel interventions** to drive cross-sell AOV and ARPU.
- Built a unit economics model for free VIP with Autopay Recharge, factoring in GMV, blended product margins, subsidy, conversion & cashback economics to evaluate **4 pilot models**, identifying **2 viable** low-burn paths with a **~36-day breakeven.**

Founder's Office & Growth | Nimrobo AI | B2B &B2C

- Grew signups from **50 to 532 (10.6x)** and achieved a **17.59% visit-to-signup conversion rate** by iterating on content, UGC, and **GEO** through FAQ/Q&A optimization and acquisition strategies across the funnel.
- Scaled the AI voice agents platform to **200+ live agents** in 1 month by driving **GTM** execution and strategic partnerships focused on accelerating product adoption.
- Generated **~147K+ views** through **6+ creator campaigns**, managing Rs **70K+ in creator partnerships** end-to-end.

Product Management Intern | HLSR Technologies |B2C (AI Doubt Solver)

- Reduced LLM response time by **40% for 100+ users** by optimizing OCR through grayscale image conversion.
- Stand-up lead and developed efficient AI prompts using various prompting techniques to improve app workflows and UX.

SKILLS

SQL, Python(NumPy, Pandas, Matplotlib, scikit-learn), Power BI, MoEngage, Excel, GitHub, Jira, n8n, Event Tracking, Figma, Notion.

PROJECTS

Brawl Stars(3v3 Mobile Game) Draft Recommender & Win Predictor | Live Demo

- Identified that players make **6 sequential picks** against a live opponent with no data to guide them; built an ML recommender **(XGBoost) trained on 117,900+ real matches** that scores every available pick in real time.
- Validated the underlying hypothesis by showing prediction quality climb from **0.57 to 0.70 AUC-ROC** as draft information was revealed, evidence that picks measurably drive outcomes, and shipped it as a free, live web app.

Inbox Triage Pipeline: (Python, Gmail API, LangChain + Gemini, Telegram)

- Built a **five-stage pipeline** (fetch, filter, LLM extraction, validation & ranking, Daily Telegram digest) to screen ~250 institute emails/week, **filtering 18% before LLM processing** and protecting credential-sensitive content before sender validation.
- **Tested on 200 hand-labelled emails**, improving deadline-extraction **accuracy from 0.62 to 0.86** and actionable-item **F1 from 0.55 to 0.81**; prioritized recall and deterministic dates/ranking to prevent hallucinated deadlines.

Chaabi: AI Tenancy Agent Design | The Ken Case-Build 2026 | Round 2 Qualifier

- **Tested 5 hypotheses** through **4 recorded tenant interviews**; quantified post-move-in losses of Rs 4,200 in inherited repairs and a Rs 2,000 unexplained deposit cut, tracing both to 2 root causes
- Blueprinted the end-to-end tenant journey across **2 loops of 7 stages each** ,with **10 failure scenarios**, **5 human-approval points** and a Rs 2,000 autonomous spending limit; mapped onto Pine Labs, Gnani and Delhivery APIs .

Warm-Start Framework for Optimization | Prof. Kishalay Mitra| *Book Chapter (Under Publication)*

- Developed a DL-assisted warm-start framework for water-treatment network optimization; reduced **79 constraints to 10 (87%)** using Activity-Variance-Correlation scoring and achieved **R^2 0.90** with a multi-output ANN.

POSITIONS OF RESPONSIBILITY

Public Relations & Networking Head | Entrepreneurship Cell, IITH

- **Led a 30+** member team and managed **150+** members to execute PAN-India outreach, external colabs, and flagship events.
- Designed and launched Startup Senate, a new school-student vertical with **70+ participants**, converting it into a recurring event and an **INR 1.2L** sustaining revenue stream for the E-Cell.
- Led flagship events engaging **2,000+ attendees**, including E-Merge (**25+ E-Cells**), Startup Fair (**30+ startups**), and Founder's Hive; coordinated outreach to **500+ startups** and **25+** investors/incubators.
- Launched Founder's Hive from ideation to execution, supporting **40+ student founders** and connecting them with **5+ mentors,** and scaling the mentorship series from IITH to Hyderabad and Bangalore.

Head Internship Coordinator and Placement Coordinator (Chemical Engineering) | OCS IIT Hyderabad

Marketing and Public Relations Coordinator | TEDxIITH Hyderabad
