EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2028	8.63
UMA SANSKAR VIDYALAYA	Class XII (Gujarat Secondary and Higher Secondary Education Board)	2024	86.76%
SABARI VIDYA VIHAR	Class X (Gujarat Secondary and Higher Secondary Education Board)	2022	93.60%

SCHOLASTIC ACHIEVEMENTS

Solved more than **200+** problems of **Data Structure and Algorithm (DSA)** across platforms like Leetcode and Geeksforgeeks

SKILLS

- Languages: C++, Python, C, SQL, JavaScript, MATLAB

- CS Concepts: Data Structures & Algorithms (DSA),Relational Database Management (RDBMS)

- Web & Backend: React.js, Next.js, FastAPI, RESTful APIs, Node.js, HTML5/CSS3

- Databases & Caching: PostgreSQL, Supabase, Prisma ORM

- Tools & AI Workflows: Git, GitHub, VS Code,Vercel, CI/CD Pipelines, Cursor, Antigravity, Codex,Gemini AI Coding Assistant (Prompt Engineering, Code Refactoring & Artifact Auditing)

Soft Skills: Problem Solving, Analytical Thinking, Communication, Team Collaboration, Time Management

PROJECTS

WealthTracker - Full-Stack Portfolio Management Platform

- **Architected a responsive full-stack web application** using Next.js 14 (App Router) and React, implementing a custom CSS design system and interactive data visualizations (Recharts) for a premium user experience.
- **Engineered a secure backend data layer** by integrating a PostgreSQL database (via Supabase) with the Prisma ORM, ensuring strict type safety and a robust multi-tenant architecture for data isolation.
- **Implemented enterprise-grade security** using Native Supabase Authentication alongside Server-Side Rendering (SSR) session cookies and Next.js route middleware to strictly protect private API endpoints.
- **Configured a Continuous Deployment (CI/CD) pipeline** using Vercel, automatically compiling the Prisma database client and statically generating pages across a global Edge network for blazing-fast load times.

Scalable URL Shortener & Analytics API

- **Engineered a RESTful URL shortening service** using FastAPI and SQLAlchemy, implementing a deterministic Base62 encoding algorithm to guarantee mathematically collision-free short codes.
- **Designed a two-table relational database schema** (PostgreSQL-ready) to capture real-time request metadata (IP, Referrer, User-Agent), enabling a rich analytics endpoint for tracking link performance.
- **Implemented a resilient token-bucket rate limiter** using Redis to prevent API abuse, architecting a graceful degradation fallback to in-memory tracking to ensure high availability during cache failures.

POSITIONS OF RESPONSIBILITY

Coordinator-Operations and Logistics-TEDx IIT Hyderabad

Coordinated a team of volunteers to execute operational tasks efficiently before and during the event.

Delegated responsibilities and monitored task completion to ensure seamless event operations.

Operations Coordinator - EBSB Club, IIT Hyderabad

Participated in ideation and planning of club initiatives and events.

Managed operational logistics and coordinated event execution.

Worked with cross-functional teams to ensure seamless event delivery.

RELEVANT COURSES

Mathematics: Calculus I & II, Elementary Linear Algebra, Differential Equations, Statistics, Complex Variables, Transform Techniques, Probability

Coding: Introduction to Programming
