## EDUCATION

| Institution | Degree / Board | Passing Year | Score / CGPA |
|---|---|---|---|
| Indian Institute of Technology Hyderabad | B.Tech | 2027 | 7.31 |
| Educare junior college | Class XII (State board) | 2023 | 77.70% |
| Narayana school | Class X (State board) | 2021 | 100.00% |

## WORK EXPERIENCE

**Summer Intern -- Oil and Natural Gas Corporation Ltd. (ONGC), Rajahmundry Asset**

- **Analyzed** crude oil and natural gas processing workflows through the project *"Overview of Processing of Crude Oil and Natural Gas,"* studying key equipment including **separators, heat exchangers, and compressors**.
- **Mapped** end-to-end process operations through exposure to **live field activities**, developing an understanding of operational workflows, equipment interdependencies, and process execution.
- **Gained hands-on industry exposure** to **HSE practices and operational decision-making**, understanding how safety, process requirements, and execution constraints influence industrial operations.

## PROJECTS

**Semantic Segmentation of Brain Tumors from MRI Images** | *Under Prof. Dr. Lakshmana Chandrala*

**Python | TensorFlow | Keras | U-Net**

- **Developed** a U-Net based deep learning model to automatically segment tumor regions from **3,000+ MRI scans**, covering **glioma, meningioma, and pituitary tumor types**, enabling pixel-level identification of tumor regions.
- **Built** an end-to-end pipeline for **data preprocessing, augmentation, dataset automation, model training, inference, and evaluation** using custom Python scripts, streamlining the complete segmentation workflow.
- **Implemented** an encoder-decoder architecture with **skip connections** to preserve spatial features and improve tumor boundary detection, evaluating segmentation using **Dice Loss and IoU** against annotated tumor regions.

**AI Product Launch Intelligence Agent** | Python, Streamlit, Agno, OpenAI, Firecrawl

- **Built a multi-agent product research platform** to support **competitive intelligence, market sentiment analysis, and product launch evaluation** using public web data and AI-driven research workflows.
- **Designed 3 specialized AI workflows** for **competitor positioning, customer perception, and launch performance signals**, translating web research into **structured and actionable product insights**.
- **Developed an interactive Streamlit MVP** with **coordinated agent workflows, web research, and structured reports** to enable faster product research and **data-driven go-to-market analysis**.

**Netflix Content Analysis using SQL** | *PostgreSQL, SQL*

- **Analysed** Netflix's movies and TV shows dataset by solving **15 business-driven queries** covering ratings, genres, countries, release trends, and audience attributes to uncover meaningful content patterns.
- **Leveraged CTEs, window functions, subqueries, aggregations, and string/date functions** to extract and rank insights across **content, geographic, and time-based dimensions** efficiently.
- **Transformed** raw Netflix data into structured analyses using **data cleaning, categorization, filtering, and aggregation**, enabling clearer understanding of **content patterns and platform trends**.

## SKILLS

**Product & Business Analytics:** Funnel & Cohort Analysis, Segmentation, A/B Testing, KPI Metrics, Feature Prioritization

**Data & AI:** SQL, Excel, Tableau, Power BI, Mixpanel, Prompt & LLM Evaluation, Voice Analytics

**Programming & ML:** Python, C/C++, JavaScript, HTML/CSS, ML, Anomaly Detection, Feature Engineering

**Tools & Leadership:** Pandas, Scikit-learn, GitHub, Jupyter, Communication, Team Leadership, Stakeholder

Management

## POSITIONS OF RESPONSIBILITY

**Head - The Shuffle Crew, IIT Hyderabad**

- **Led** a 20-member team across **15+ events**, managing recruitment, choreography, scheduling, and performances.
- **Launched** the **Classical Dance Wing**, leading competition preparation and securing **4th position at Inter-IIT**

**PR & Media Head - Milan, IIT Hyderabad** | *(College Annual General Championship)*

- **Drove 30%+ growth in audience engagement** by strategizing and executing targeted social media campaigns and outreach initiatives, growing MILAN's social media following from **2.5K to 3.3K**.
- **Led outreach for 30+ events**, managing a **15-member team** and securing **12+ sponsor partnerships**.

**PR & Media Coordinator - NSS Club, IIT Hyderabad**

- **Coordinated PR and multimedia activities** for **10+ NSS events** as part of a **6-member team**, managing promotions, digital content, event communications, and outreach initiatives.

## RELEVANT COURSES

**Business & AI:** Startup & Finance, Operations Research, ML, AI, GenAI, Probability & Statistics

**Technical & Mathematical:** Introduction to Programming, Linear Algebra, Calculus, Differential Equations

## EXTRACURRICULARS

- **Classical Dance - Bharatanatyam & Kuchipudi:** Secured **2nd place at State Level (2018)** with **200+ stage performances** across competitions and cultural programs, demonstrating discipline and sustained commitment.
- Performed at **Japan Day** and volunteered at **Suzuki Innovation Centre** events for **community engagement**.
