EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	7.30
SND PUBLIC SCHOOL, PALWAL	Class XII (CENTRAL BOARD OF SECONDARY EDUCATION)	2023	82.40%
SPS INTERNATIONAL SCHOOL, PALWAL	Class X (CENTRAL BOARD OF SECONDARY EDUCATION)	2021	94.80%

POSITIONS OF RESPONSIBILITY

Event Coordinator -- Diesta 2026

- **Led** end-to-end execution of assigned events, managing timelines, logistics, and cross-functional dependencies.
- **Managed** event operations across stakeholders, resolving operational bottlenecks and ensuring timely execution.

Hospitality Coordinator -- EML, IIT Hyderabad

- **Coordinated** hospitality operations for **5+ EML events**, managing speaker requirements, accommodation, logistics, transportation, and on-ground support.
- **Managed** end-to-end hospitality for sessions featuring distinguished speakers, ensuring timely coordination of speaker and event requirements.

Content Coordinator -- EML, IIT Hyderabad

- **Led** content and outreach for **4+ EML events**, coordinating speaker communication, promotional material, audience engagement, and event communication.
- **Managed** content requirements across multiple speaker sessions, ensuring timely preparation and execution of promotional event material.

SKILLS

- **Data Analytics:** Python, SQL, Excel, Tableau, Probability, Statistics, EDA, Data Visualization
- **Libraries:** Pandas, NumPy, Matplotlib, Seaborn
- **Product Management:** Product Discovery, Product Strategy, Product Analytics, KPI & Funnel Analysis, User Research, A/B Testing, RICE Framework
- **Tools / Technologies:** MySQL, Jupyter Notebook, Google Colab, Linux(Ubuntu), VS Code
- **Soft Skills:** User Empathy, Problem Solving, Analytical Thinking, Teamwork, Communication, Leadership, Adaptability.

PROJECTS

AI-Assisted Customer Feedback

Python | NLP | TF-IDF | Sentence Embeddings | Clustering | Product Analytics

- **Analyzed 9,995 CFPB complaints** using Python, NLP, and TF-IDF to uncover recurring customer issues.
- **Engineered 384D embeddings** and **10 semantic clusters**, achieving **47% same-issue agreement** in validation.
- **Identified** a **1,222-complaint dispute cluster (12.23%)**, driving a **Dispute Tracker MVP** and product roadmap.

LinkedIn Job relevance engine

Python | Pandas | Numpy | Matplotlib | SQL | Ranking Algorithm | Product Analytics

- **Built** a job relevance engine with **12,000 impressions** across **800 users, 500 jobs, and 7 signals**.
- **Engineered** a ranking model using **7 relevance signals** to generate transparent job recommendation scores.
- **Evaluated** recommendations using **funnel analysis and Top-10 ranking**, guiding **RICE and A/B tests**.

Mini File Compressor

C++17 | STL | Huffman Coding | Data Structures & Algorithms | Bit-Manipulation | CMake | GoogleTest

- **Developed** a lossless file compressor using Huffman Coding, frequency analysis, binary trees, and min-priority queues.
- **Implemented BitWriter/BitReader components** for bit-level encoding, byte packing, and binary file I/O.
- **Designed** a custom .huf format with metadata and deterministic tree reconstruction, validated using GoogleTest.

Netflix Data Analysis

PostgreSQL | SQL | CTEs | Window Functions | Data Cleaning | Exploratory Data Analysis

- **Analyzed 8,807 Netflix titles** across **12 attributes** using PostgreSQL, answering **15 business** questions on content.
- **Engineered** SQL transformations for multi-valued fields using **UNNEST(), CTEs, and aggregations** for analysis.
- **Applied RANK, PARTITION BY,** date parsing, and conditional logic for ranking, trends, and data-quality analysis.

ACHIEVEMENTS

- **Solved 300+ coding problems** across DSA and SQL, including **Leetcode SQL 50**, covering algorithmic problem-solving, data structures, database queries, and optimization techniques.

- **Selected** for the **National Scholarship Portal (NSP) Scholarship** based on academic merit and eligibility criteria.

RELEVANT COURSES

- **Core CS Courses:** Introduction to Programming, Data Structures and Applications, Operating Systems I & II

- **Core Computational Courses:** Fundamentals of Scientific Computing, Computer-Oriented Numerical Methods-I&II, Computational Methods in Materials Science, Principles of Game Theory

- **Other Courses:** Calculus , Transform Techniques, Differential Equations, Linear Algebra, Probability, Statistics

EXTRACURRICULAR & ADDITIONAL INFORMATION

- **Active member** of **NSS**, contributing to community service and social outreach initiatives.
- **Volunteered** at the **Half Marathon 2024** inaugurated by IIT Hyderabad, supporting event coordination.
- **Competed** as an **active volleyball player** at IIT Hyderabad, participating in institute-level sporting activities.

- **Hobbies & Interests:** Dramas | Movies | Mountains & Travel | Cooking | Chess | Volleyball
