EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2026	7.39
Narayana Junior college	Class XII (TSBIE)	2023	97.50%
Narayana school	Class X (SSC)	2021	10.00%

SKILLS

Languages: C++, Python, SQL

Systems & Concurrency: Multithreading, Synchronization, Atomic Operations, Spin Locks, POSIX Threads

Databases: PostgreSQL

Libraries: NumPy, pandas, Matplotlib, scikit-learn, SciPy

Tools/Environments: Git, GitHub, VS Code, Linux/WSL2, Google Colab, Kaggle API, LaTex

Project Management: Taiga, Agile/Sprint-based Development

PROJECTS

Analytics BI and Dashboard Creator & Visualization

- Contributed to the frontend development of an end-to-end Business Intelligence platform for data exploration, visualization, and dashboard creation.
- Worked on interactive chart-building and visualization components using React and Apache ECharts, supporting configurable charts, data-driven visualizations, and reusable chart definitions.
- Contributed to dashboard-building functionality enabling users to arrange and manage multiple visualizations through interactive layouts.

AI Goal-Sticking Agent -- The Ken Case Competition

- **Advanced to Round 3** of The Ken Case Competition for an AI-powered goal-adherence agent.
- Designed and prototyped an agent that helps users maintain long-term goals through **goal setting, streaks, behavioral tracking and personalized interventions**.
- Developed an initial **MVP prototype** to operationalize the proposed agent workflow and explore how behavioral signals could drive goal-adherence interventions.
- Currently developing the next-stage simulation and business model as part of the Round 3 challenge.

Bitcoin Mining & SHA-256 Parallelization

- Explored Bitcoin mining and Proof-of-Work fundamentals, including blocks, transactions, nonces, mining difficulty and SHA-256 hashing.
- Executed and debugged an existing Bitcoin mining implementation to understand the end-to-end **nonce-search and hash-validation workflow**.
- Investigated the computational bottlenecks in mining and began exploring **multithreaded parallelization and performance measurement** of the mining workload.

POSITIONS OF RESPONSIBILITY

Assistant coordinator | Hospitality, TEDx

- Coordinated pre-event hospitality and venue readiness, including arranging guest requirements, refreshments, props, seating, and other on-ground logistics.
- Managed attendee registration verification at the venue by cross-checking incoming attendees against registration

records and maintaining real-time attendance updates.
- Coordinated with the organizing team during event execution to ensure guest and attendee requirements were addressed promptly.

PR Coordinator | EML

- Coordinated pre-event venue setup and logistics and ensuring presentation equipment was ready before speaker arrival.
- Hosted two EML events, facilitating audience interaction and coordinating the event flow in collaboration with the organizing team

RELEVANT COURSES

Computer Science: Data structures and algorithms, Computer networks, Theory of computation, Discrete maths, Operating systems, DBMS, Software engineering.

Mathematics: Calculus, Probability & Random Variables, Intro to Statistics, Linear Algebra, Differential Equations

EXTRACURRICULAR

- Represented IITH across Street Play and Stage Play at two Inter IIT Cultural Meets(2023 & 2025). Secured **6th** position **among 26 IITs** in Street Play, 2023.

- Secured **Silver Medal** in the Inter-Hostel Carrom Competition at Milan 2023.
- Secured **Bronze Medal** in the Inter-Hostel Filmmaking Competition at Milan 2024.

- Volunteered at orphanage and old age home visits.

Interests

- Photography - Literature & Reading - Classical Instrumental Music - German Language Learning - Chess
