EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	7.26
Narayana Junior College	Class XII (Telangana State Board of Intermediate Education)	2023	9.72%
Naagarjuna High School	Class X (Telangana State Board)	2021	10.00%

EXPERIENCE

Amgen India | GSIM Intern-Regulatory Data Analytics (RDA) Intern

- Developed a **5-page Power BI dashboard** with **15+ Performance, Quality, and Compliance KPIs**, transforming regulatory operations data into interactive insights for business monitoring and decision-making.
- Automated **regulatory document tracking and reporting workflows**, streamlining data analysis and reducing dependency on manual reporting processes.
- **Containerized and deployed** a dashboard application using Docker and Kubernetes on Rafay, reducing manual deployment effort by **~30%** and improving deployment consistency across environments.
- Streamlined the **deployment workflow from container build to Kubernetes deployment**, improving scalability and reducing manual deployment steps.

PROJECTS

Mapty App | *HTML5, CSS3, JavaScript (ES6+/ESNext), OOP, Leaflet.js, LocalStorage API*

- Developed an **interactive web application** for **tracking running and cycling workouts**, featuring **real-time geolocation**, **interactive map visualization** (Leaflet.js), and persistent data storage using the browser's LocalStorage API.
- Implemented with modern **JavaScript (ES6+, OOP)**, enabling users to log, view, and manage workouts with detailed metrics (distance, duration, pace, cadence, elevation gain), all within a responsive, mobile-friendly interface.

Node Farm App | *Node.js, Core Modules, JSON, Server-side Rendering*

- Built a **dynamic Node.js web application** that displays product listings and individual product pages using **custom HTML templates** and **server-side rendering.**
- Implemented efficient **routing, template replacement logic**, and **JSON-based data handling** for a responsive catalog of organic and non-organic food items.
- Utilized **core Node.js modules (HTTP, FS, URL)** and followed a modular code structure to ensure maintainability and scalability.

Travel List App | *React.js, React Hooks, JavaScript (ES6+/ESNext), CSS Modules*

- Designed and implemented an advanced **React.js single-page application** for travel packing management, enabling users to add, edit, and remove travel items with real-time state updates.
- Leveraged **React functional components** and **Hooks (useState, useEffect)** for efficient state management and side effects.
- Employed **ES6+ JavaScript features** for modular, maintainable code, and followed best practices in component-driven development to optimize performance and reusability.

SKILLS

Languages: C, C++, Python, JavaScript (ES6+/ESNext), HTML5, CSS3, MATLAB, SQL

Frameworks & Libraries: React.js, Tailwind CSS, Node.js, Express.js, Mongoose

DevOps & Tools:Git, GitHub, Jenkins, Docker

Miscellaneous: LaTeX, Linux, Bash Scripting, Markdown, Solid Edge

RELEVANT COURSES

R and Python for Biologistics, AI in Drug Discovery, Machine Learning in Bioinformatics, Business Analytics Using Python, Text Analytics for Business, Introduction to Programming,

POSITIONS OF RESPONSIBILITY

Coordinator - Alumni Cell Outreach

- Led strategic outreach efforts by organizing alumni interactions and communication drives, strengthening the alumni-student network and increasing event participation through targeted engagement initiatives.

Head - Alumni Cell Outreach

- Led alumni outreach initiatives by managing strategic communication, guiding team coordinators, and launching engaging alumni-student programs to strengthen long-term institutional connections.

Coordinator - TEDx Sponsorship

- Coordinated with potential sponsors, preparing proposals, and securing funding and resources to support a successful TEDx event.

EXTRACURRICULAR ACTIVITIES

Participated in **National Service Scheme (NSS)** and **cultural, sports, and student community activities** at IIT Hyderabad.
