EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	6.72
Sri Chaitanya Jr Kalasala	Class XII (SSC)	2023	97.40%
Sri Chaitanya School	Class X (SSC)	2021	100.00%

SCHOLASTIC ACHIEVEMENTS

- Cleared the Jawahar Navodaya Vidyalaya entrance exam (2016) in the General category, securing selection through a highly competitive national-level process.

SKILLS

Programming & Tools: C, Python, MS Word, Excel, PowerPoint, MATLAB, MySQL, LaTeX

Web & Software: HTML, CSS, JavaScript, React, Node.js

Mechanical & Simulation: ANSYS, ADAMS, Solid Edge, Fusion 360

PROJECTS

Video Call Application:

- Designed and documented an end-to-end video communication solution, translating user requirements into technical workflows.
- Researched and evaluated WebRTC-based architectures to ensure reliable peer-to-peer connectivity.
- Coordinated frontend and backend components, ensuring structured implementation and testing.
- Technologies used: HTML, CSS, JavaScript, React, Nodejs

E-commerce Customer & Category Analytics | Python, Excel

- Analyzed online grocery transaction data to evaluate category-level revenue, order value, and customer behavior

- Computed key business metrics including average order value and repeat purchase behavior

- Generated Excel-ready summaries to support business-focused insights

Student Formula Car Project | Aeolus Racing Team, IITH:

- Core team member in the **Powertrain subsystem**, involved in design, analysis, and integration of the drivetrain for a student formula race car.
- Worked on **engine-drivetrain integration**, power transmission layout, and selection of powertrain components to meet SAE SUPRA regulations.
- Assisted in **performance analysis** of the powertrain, focusing on torque delivery, efficiency, and reliability under race conditions.
- Collaborated with cross-functional teams (chassis, vehicle dynamics, electronics) to ensure seamless powertrain integration and system compatibility.

POSITIONS OF RESPONSIBILITY

Finance & Management Head - Sunshine Counselling Cell

- Prepared and managed budgets for club activities, including advance fund requests and expense tracking
- Monitored expenditures and submitted financial reports to the institute for accountability and compliance
- Planned and executed student events, coordinating logistics, resources, and team responsibilities
- Managed backend operations of the club, ensuring smooth coordination across administrative and operational tasks

Core Member & Sponsorship Team - Aeolus Racing Team

- Part of the core team involved in the design, planning, and development of a student formula-style race car for SAE SUPRA
- Worked in the sponsorship team to reach out to potential sponsors and manage professional communications
- Assisted in budgeting and resource planning to support vehicle development and competition expenses
- Gained hands-on exposure to real-world engineering project management under strict timelines

Coordinator - Alumni Cell

- Helped connect alumni across different batches with current students and institute representatives
- Supported event logistics, scheduling, and coordination for an alumni meet
- Assisted in planning and coordinating alumni interactions and outreach activities

RELEVANT COURSES

Computer Science: Introduction to programming, Introduction to Modern AI

Mathematics: Calculus, Linear Algebra, Probability, Statistics, Transform Techniques, Complex Variables

Core Courses: Engineering Mechanics, Thermodynamics, Fluid Mechanics, Mechanics of Solids, Heat and Mass Transfer, Manufacturing Science, Kinematics & Dynamics of Machinery, FEM and CFD, Design of Machine Elements, Modelling and Simulation
