EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	8.80
Sri Chaitanya Junior Kalasala	Class XII (Telangana State Board of Intermediate Education)	2020	93.40%
THE HYDERABAD PUBLIC SCHOOL RAMANTHAPUR	Class X (CBSE)	2018	84.20%

PROJECTS

FEG Pulse -- Context-Aware Engagement & Compliance Engine | Hackathon Winner -- Built a knowledge-graph-driven multi-surface engagement system that intelligently routes real-time sports and gaming events to widgets, lock screens, Live Activities, wearables, and voice interfaces. Implemented a Care Gate compliance layer for consent management, self-exclusion, inducement blocking, frequency caps, and explainable decision logging/provenance, enabling safe and context-aware content delivery.

Sight Sphere Communicator -- Created and integrated a wearable gadget with wireless data transfer to an SBC that uses sensors and cameras and is battery-operated. To provide descriptive and navigational support for a multimodal LLM, I created a Python script for sensor data fusion. designed a user-friendly audio UI for on-the-spot feedback and guidance. Reliability and a practical user experience are guaranteed by the device's effectiveness.

Driver Drowsy Detection System -- An IOT-based integrated machine learning model that helps drivers get alerted on life caution incidents based on the 8 - 12MP IP camera, which scans the iris of the driver and, with biological magnification, reads the drowsy sights and alerts with an alarm to stay cautious.

Sales Performance Analysis for Data-Driven Strategy -- Analyzed fourth-quarter sales data to identify regional revenue trends, high-performing states, and underperforming markets. Conducted exploratory data analysis to uncover performance patterns and growth opportunities across regions. Generated actionable insights and recommendations to support sales optimization and data-driven strategic decision-making and presented the findings through a structured sales performance report.

E-Commerce Application -- Designed a Python-based E-Commerce application using Object-Oriented Programming (OOP) principles with SQLite for data storage. Implemented user and admin authentication, session management, product catalog management, shopping cart functionality, and a secure checkout process.

SKILLS

Programming & Querying: Python, SQL, Java

Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Excel, Power BI, Tableau

Databases & Cloud: MySQL, PostgreSQL, MongoDB, AWS, Azure

Machine Learning & AI: Scikit-learn, TensorFlow, PyTorch, Transformers, NLTK, LangChain, LangGraph, OpenCV

RELEVANT COURSES

Machine Learning and Mathematics: Applied Statistics, Probability & Random Variables, Foundations of Machine Learning, Programming for AI, Introduction to Artificial Intelligence, Matrix Theory, Linear Systems & Signal Processing, Vector Calculus

Computer Science Fundamentals: Data Structures & Algorithms, Programming Fundamentals, Operating Systems,

Computer Networks

Medical Device & Innovation: Biomedical Devices, Physio Anatomy & Pathophysiology of Diseases, Rapid 3D Printing & Prototyping, Design Thinking, Flexible & Wearable Electronics

SCHOLASTIC ACHIEVEMENTS

Secured 2nd Position | Top 10 Finalist among 400+ teams : **FEG Hackathon**, in collaboration with **T-Hub**

POSITIONS OF RESPONSIBILITY

Office of Career Services (OCS), Placement Coordinator of IITH 2025-26.

PRAYAS (Rural Development Cell), Head Coordinator of IITH 2025-26.

EXTRACURRICULAR

Women Tennis Team Representative | Inter IIT Sports Meet 2025.

Regional Badminton Cluster Tournaments and Intra IIT events winners.
