EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	8.24
Narayana E-Techno School	Class XII (CBSE)	2023	87.60%
Narayana E-Techno School	Class X (CBSE)	2021	94.60%

SCHOLASTIC ACHIEVEMENTS

1. Qualified for the **2nd Round** of **Regional Mathematics Olympiad (RMO)**, a national-level mathematics competition.
2. Gave several other **OLYMPIADS** and **National talent search exams** like **NTSE Stage-I, KVPY, ISO, Homi Bhabha Balvaidnyanik Competition** and etc.

SKILLS

1. **Technical**: SQL, Python, Excel, Tableau, Power BI(Beginner)
2. **Engineering Software:** Solid Edge (Siemens, 3-credit certified course), MATLAB, CAD, Google Earth Engine
3. **Product**: PRD writing, A/B Testing, KPI Definition, Road mapping
4. **Interpersonal & Team Skills:** Strong communication, collaboration, and leadership
5. **Productivity Tools:** MS Office Suite, PowerPoint, Word, Excellent Proficiency in Optimal use of AI
6. **Adaptability & Fast Learning**

WORK EXPERIENCE

Assistant Manager -- Satya Construction Solutions, Mumbai

- Managed cross-functional operations across **two major sites**, streamlining task allocation and execution workflows to significantly reduce project completion times.
- Led stakeholder management for **6+ enterprise clients** representing **over 25 Lakh in contract value**, driving scope definition, cost analysis, and requirement gathering.
- Optimized resource utilization, scaling efficiency and **reducing operational waste by 12 percent** through data-driven planning, capacity tracking, and workflow monitoring.
- Prioritized concurrent daily operations and resolved routine bottlenecks to support timely project delivery and maintain workflow continuity.

Intern - Satya Constructions Solutions (Mumbai)

- Analyzed operational workflows and identified system bottlenecks, proposing process optimizations projected to improve task efficiency by 12 to 15 percent and reduce rework by 10 percent..
- Designed structured quality control frameworks and audit checklists, establishing clear metrics that improved defect detection consistency by 20 percent.
- Collaborated with operational leads to translate complex field problems into measurable executive KPIs, reducing reporting ambiguity by 30% and improving data-driven decision-making.
- Translated behavioral data into business insights to understand consumer valuation of sustainability claims and willingness-to-pay metrics in research contexts.

PROJECTS

Context-Aware AI Shopping Recommender | Python, SQL, Scikit-learn, Streamlit

- **Built** a context-aware AI shopping recommender on **1.06M+ transactions**, covering **5,334 customers and 4,164 products**, using Python, SQL and Scikit-learn.
- **Engineered** hybrid recommendations using **TF-IDF, K-Means (K=200), item-item CF, content similarity, customer affinity, popularity and price preferences.**
- **Addedoccasion, temperature, rainfall and time-of-day** signals to a logistic ranking model; achieved **53.8% Hit Rate and 117.6% NDCG uplift vs. popularity** on a time-based holdout.
- **Built** a **Streamlit** prototype for interactive recommendations, strategy comparison, explanations, product bundles and experiment analytics.

Customer Retention & Re-Engagement Analysis (SQL, Python, Excel | Dataset: 50 customers, 10 products, 100+ orders)

- Conducted cohort and retention analysis using SQL and Python to segment customers into Active, At-Risk, and Inactive cohorts..
- Defined executive KPIs including Retention Percentage, LTV, and Revenue per Active User, recommending targeted re-engagement campaigns with a projected uplift of 15 to 25 percent.
- Proposed a phased roadmap: immediate SQL reports, short-term loyalty campaigns, and a long-term predictive churn model with A/B testing.
- Packaged findings as business-ready recommendations and a PRD-style rollout plan for cross-functional teams.

POSITIONS OF RESPONSIBILITY

1) **Hostel Representative: (1st Year, 2023-24)**

- Represented **120+ residents**, translating concerns into structured, actionable tasks for hostel management -- similar to defining clear product requirements and measurable KPIs for feature development and stakeholder alignment.
- Designed and executed cultural and sports events by creating detailed schedules, allocating resources, and streamlining workflows, which minimized conflicts, improved efficiency, and significantly boosted participation across student groups.

2) **QURVE Coordinator:(3rd Year, 2024-25)**

- Facilitated campus-wide workshops and events with **100+ participants** by overseeing logistics, scheduling, and outreach strategies, ensuring consistent engagement and meaningful learning experiences for the student community.
- Acted as the bridge between student groups and campus management, aligning stakeholder expectations, resolving conflicts, and fostering broad consensus that enabled smoother event planning and successful collaborative execution.

3) **Volunteer, E-Cell IIT Hyderabad: (2nd Year, 2023-24)**

- Supported entrepreneurship workshops and startup talks with **200+ participants**, managing registrations, logistics, and targeted promotional campaigns, which drove higher turnout and enhanced program visibility across campus.
- Coordinated between speakers, participants, and organizing teams, maintaining professional communication flows and structured event timelines that ensured seamless delivery and positive stakeholder experience.

4) **Volunteer, Elan & Vision Fest: (2nd Year, 2023-24)**

- Managed hospitality and large-scale event operations for the annual fest with **2,000+ attendees** and **40+ partner entities**, including responsibility for scheduling, accommodation, and resource allocation under tight constraints.
- Strengthened expertise in **cross-functional coordination, large-scale operations, and real-time problem solving**, handling diverse stakeholder needs while maintaining smooth execution and measurable impact on participant satisfaction.

RELEVANT COURSES

Business Analytics using Python (3 credits) - Regression modeling, predictive analytics, data visualization, consumer behavior analysis using pandas, scikit-learn, matplotlib

Consumer Psychology & Decision Making (1 credit) - Behavioral economics, choice architecture, heuristics and biases, intention-behavior gap, motivation theory

Marketing Research (1 credit) - Survey design, sampling methods, statistical analysis, consumer insights generation

Innovation Management (1 credit) - Technology adoption, organizational change, innovation implementation barriers, new product development

International Business (1 credit) - Global market dynamics, cross-cultural business practices, international consumer behavior

Various Statistical Courses- Biostatistics(Using Python), Probability Analysis and etc

EXTRACURRICULAR

1. **Sports (Football):** Represented school team (2011-2017) winning multiple inter-school tournaments in Mumbai; currently play for the Institute Football team at IIT Hyderabad for Inter-IIT tournaments, developing strong teamwork and discipline..
2. **Music (Guitar)** - Learning classical acoustic guitar, demonstrating creativity, patience, and commitment to self-improvement.
3. **Business Management Enthusiast** - Very keen in business analytics, market structure and upcoming entities.

RESEARCH EXPERIENCE

ADAS Systems and Framework Development in India (Ongoing, 3-credit project)

Supervisor: Professor Digvijay S. Pawar, Department of Civil Engineering, IIT Hyderabad | Jan 2026 - April 2026

- Developing framework for Advanced Driver Assistance Systems implementation in Indian automotive market, analyzing technology adoption barriers, regulatory landscape, and consumer acceptance patterns
- Conducting mixed-methods research (literature review, stakeholder interviews, market analysis) to understand user willingness to understand and utilize the safety technologies and intention-behavior gaps.
- Developing actual framework(Paper under PhD scholar) for Indian adoption of ADAS.
