EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2028	8.12
Sarvodya School of Science	Class XII (CBSE)	2023	86.20%
Sarvodya School of Science	Class X (CBSE)	2021	91.00%

WORK EXPERIENCE

Full Stack Developer at Fraylon Technologies

- Developed a production registration platform using **Next.js** and **TypeScript**, delivering scalable registration workflows, **reusable UI architecture**, and **optimized data loading** for large-scale event onboarding.
- Integrated **Razorpay Checkout** into the registration flow with **client-side form state**, **duplicate-email validation**, and UPI QR payment support. Used **Next.js API routes** to save completed registrations.
- Developed a college **autocomplete feature** for 2,000+ institutions using **lazy-loaded static JSON**, **Set-based deduplication**, and a **10-result render limit** to keep the initial page lightweight and search responsive.

Developer Intern at Indian School of Physics

- Built a end-to-end recorded **learning module** by designing lecture **data models**, implementing **REST APIs**, **admin content management**, **progress tracking** through backend completion APIs and local playback persistence.
- Built an **asynchronous live-class** provisioning workflow by scheduling **Redis/Bull jobs**, polling TPStream for credential readiness, **persisting session credentials**, broadcasting updates via **Socket.IO**, and implementing **cron-based failover** for non-Redis environments.
- Developed an assignment submission system by implementing the **assignment_submissions model**, student **upload/update workflows**, an **admin review dashboard**, and a unique **database constraint** to ensure a single updatable submission per student.

PROJECTS

Aurum Luxe | Full-Stack Gold E-Commerce Platform

- **Engineered a full-stack e-commerce platform** using **React**, **Firebase**, and **Firestore**, supporting both customer and admin workflows through role-based authentication and a unified application architecture.
- **Improved transaction reliability** by implementing **Firebase Cloud Functions** for server-side price validation, authenticated image uploads, and atomic Firestore batch operations to ensure consistent order and inventory updates.
- **Automated production deployments** using **GitHub Actions** to continuously deploy Firebase Cloud Functions, Firestore rules, Storage rules, and Hosting, improving release consistency across environments.

WanderLust | Full-Stack Hotel Booking Platform

- **Developed a full-stack hotel booking platform** using **Node.js**, **Express.js**, **MongoDB**, and **EJS**, following the MVC architecture to build scalable REST APIs for listings, bookings, reviews, and user management.
- **Built secure backend workflows** by integrating **Passport.js** authentication, role-based authorization, Cloudinary image storage, and Mapbox location services for seamless property management.
- **Improved application reliability** through centralized error handling, reusable Express middleware, Joi request validation, and deployment on **Render** with **MongoDB Atlas**.

SKILLS

Languages: C++, Python, JavaScript, TypeScript

Frameworks: React, Next.js, Node.js, Express

Tools: Git, GitHub, Postman, Render, Vercel

Technologies: Redis, REST APIs, JWT, Firebase Cloud Functions

Databases: PostgreSQL, MongoDB, Firestore

SCHOLASTIC ACHIEVEMENTS

Leetcode Contest Rating: 1720

RELEVANT COURSEWORK

Mathematics : Differential Equations, Calculus, Linear Algebra

Computer Science: Fundamentals of Scientific Computing, Computational methods in Material Science, Introduction to AI

POSITIONS OF RESPONSIBILITY

Head of Startup Partnerships & Outreach at E-Cell, IIT Hyderabad

- Leading Startup Studio, Networking Arena at E-Merge, and startup-focused initiatives at E-SUMMIT by building partnerships with startups, founders, mentors, investors.
- Managing a team of 13 managers, overseeing outreach strategy, mentor relations, event planning, and industry collaborations to strengthen E-Cell's startup ecosystem.

Manager at E-Cell, IIT Hyderabad

- Led startup outreach for Networking Arena and Startup Sprint by managing outreach campaigns, maintaining startup databases, and coordinating with assistant managers.
- Organized Founder's Hive by onboarding founders and early-stage startups, facilitating mentorship, networking, and founder interaction sessions.

Core at Tinkerers' Lab, IIT Hyderabad

- Led sponsorship outreach by identifying and approaching potential industry partners for Tinkerers' Lab events.
- Coordinated corporate communications and follow-ups to build partnerships and support event execution.
