EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2028	8.63
Sri Chaitanya Junior College	Class XII (Telangana Board of Intermediate Education)	2024	98.50%
Sri Chaitanya Techno School	Class X (Board Of Secondary Education)	2022	10.00%

SKILLS

Languages : Java , Python , C , SQL

Libraries : Numpy , Pandas , Scikit-learn , OpenCV , TensorFlow , XGBoost

Tools : Git , GitHub , JDBC , MySQL , StreamLit , Jupyter Notebook , VS Code

Core CS : Data Structures and Algorithms , Object-Oriented Programming , Operating Systems , DBMS.

Soft Skills : Communication , Analytical Thinking , Leadership , Problem Solving.

PROJECTS

Digital Instrument Reader using YOLOv8 | *Python , YOLOv8 , OpenCV* | GitHub Link

- Fine-tuned a pretrained **YOLOv8 Nano** model to detect **seven-segment digits** and symbols from digital instrument displays.
- Designed a **post-processing pipeline** to reconstruct complete numerical readings by spatially ordering detected characters.
- Built a **Streamlit** dashboard supporting **image upload**, **automated webcam inference**, experiment logging, and live visualisation.
- Automated timestamped **CSV logging**, **statistical analysis**, and **PDF report** generation to streamline laboratory experiment monitoring.

Customer Churn Prediction | *Python , Scikit-learn , XGBoost* | GitHub Link

- Developed an end-to-end machine learning pipeline for customer churn prediction using **Logistic Regression, Decision Tree, Random Forest, and XGBoost**.
- Applied **data preprocessing, feature engineering, and SMOTE-based class balancing** to improve performance on imbalanced datasets.
- Compared multiple classification models using **Accuracy, Precision, Recall, F1-score, ROC-AUC, and PR-AUC** to select the best-performing model
- Deployed the best-performing model through a **Streamlit** application for real-time customer churn prediction.

Fest Analytics Dashboard | *MySQL, SQL , Python, Pandas* | GitHub Link

- Designed a relational **MySQL database** with normalised tables, **primary keys,** and **foreign keys** to manage outreach campaigns, registrations, coordinators, events, and follow-ups.
- Developed **SQL-based analytics** using **joins, aggregations, window functions**, and **conversion metrics** to generate insights on registrations, revenue, outreach funnel, coordinator performance, and event health.
- Built an interactive **Streamlit** dashboard with **KPI cards**, **trend visualizations**, leaderboards, and actionable alerts to support data-driven event planning and decision-making.
- Automated **CSV data ingestion into MySQL** using Python and Pandas, enabling efficient dashboard updates and analytical reporting.

Smart File Organiser | *Java, Java NIO , Collections Framework, OOP* | GitHub Link

- Developed a modular Java application to recursively scan, categorise, search, and organise files using object-oriented design principles.
- Implemented duplicate detection using **SHA-256 content hashing** with a recovery-based removal mechanism for safe file management.
- Designed reusable service classes leveraging **Java Collections** and the **NIO File API** to generate reports, analyse storage usage, and improve application maintainability.

RELEVANT COURSES

Computer Science : Introduction to Programming , Data Structures and Algorithms(DSA)

Machine Learning & AI : Introduction to Artificial Intelligence , Machine Learning Specialisation(Deep Learning.AI)

Mathematics : Calculus , Linear Algebra , Statistics , Probability , Differential Equations.

Physics : Computational Physics , Mathematical Physics , Advanced Mathematical Physics.

POSITIONS OF RESPONSIBILITY

Head Of Outreach | *Elan&nVision ,2027*

- Lead Outreach initiatives with schools , colleges , and student communities.
- Coordinate outreach campaigns to increase event participation.
- Manage communication and long-term engagement with educational institutions and external partners.

Internship Coordinator | *Office of Career Services 2026-27*

- Coordinate with recruiters , students , and the placement team to facilitate internship processes.
- Support internship drives by managing communication , scheduling , and operational activities.
