EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2028	8.49
FIITJEE	Class XII (TGBIE)	2024	96.70%
Johnson Grammar School ICSE	Class X (ICSE)	2022	95.70%

SKILLS

Languages: C, Java, JavaScript, Python, SQL, HTML5, CSS3

Core CS: Data Structures & Algorithms (Java), Object-Oriented Design, DBMS, Operating Systems

Frameworks & Technologies: React, Node.js, Express.js, Tailwind CSS, REST APIs

Generative AI: LLM APIs, Prompt Engineering, Embeddings, RAG, Vector Search

Databases: PostgreSQL, pgvector, Appwrite Database

Developer Tools: Git, GitHub, VS Code, Postman, npm, Vercel, Render, Neon

RELEVANT COURSES

- Introduction to Programming - Calculus I & II - Differential Equations - Elementary Linear Algebra

- Transformation Techniques - Introduction to Probability - Introduction to Statistics

- Complex Variables

PROJECTS

1. AI Powered Personal Finance Management Platform | React - Node.js - Express.js - PostgreSQL - Drizzle ORM - Tailwind CSS - LLM APIs

GitHub: https://github.com/nishitpasupuleti/ai-personal-finance-platform

Live Demo: https://ai-personal-finance-platform.vercel.app

- Built a full-stack personal finance platform integrating AI-powered features with complete CRUD functionality for transactions, categories, budgets, and recurring payments, backed by secure JWT authentication.
- Developed interactive dashboards featuring financial analytics, budget tracking, recurring transaction management, search & filtering, and data visualizations.
- Integrated PostgreSQL with Drizzle ORM and built RESTful APIs using Express.js with secure cookie-based authentication and optimized database operations.
- Designed a scalable architecture to support future AI-powered financial insights and intelligent automation features.
- Deployed the frontend on Vercel and backend on Render with a production-ready PostgreSQL database.

2. AI-Powered Code Reviewer & Complexity Analyzer | React - Node.js - Express.js - PostgreSQL - Drizzle ORM - Tailwind CSS - LLM APIs

GitHub: https://github.com/nishitpasupuleti/ai-code-reviewer

Live Demo: https://ai-code-reviewer-beryl-two.vercel.app/

- Built a full-stack AI-powered code review platform with secure JWT authentication and code submission management across multiple programming languages.
- Integrated AI APIs to analyze code quality, estimate time and space complexity, generate improvement suggestions, and assign code quality scores.
- Developed a responsive React application with dashboards, submission history, analytics, and detailed review pages backed by Express.js REST APIs, PostgreSQL, and Drizzle ORM.

- Deployed the application using Vercel (frontend), Render (backend), and Neon PostgreSQL (database).

3. Full-Stack Blogging Platform | React - Appwrite - Tailwind CSS

GitHub: https://github.com/nishitpasupuleti/inkflow-blog

Live Demo: https://inkflow-blog-ruby.vercel.app/

- Built a full-stack blogging platform with secure authentication and CRUD functionality for creating, editing, and managing blog posts.
- Integrated Appwrite Authentication, Database, and Storage for user management, content persistence, and media uploads.
- Developed a responsive React interface with reusable components, rich-text editing, and dynamic routing.
- Deployed the application on Vercel with Appwrite as the backend service.

POSITIONS OF RESPONSIBILITY

Development Core Member at **Lambda**, **The Software Development Club of IIT Hyderabad**
