EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2028	8.37
Narayana Junior College	Class XII (Telangana State Board of Intermediate Education)	2024	99.00%
Sadashiva International School	Class X (Telangana Board of Secondary Education)	2022	10.00%

POSITIONS OF RESPONSIBILITY

Hospitality Coordinator | Inter IIT Sports Meet 2025

- Managed participant hospitality for 3,500+ memebers, including accommodation, help desks, and guest assistance.
- Collaborated with organizing teams to ensure a smooth and welcoming experience for participants throughout the event.

AstroTech Core | Cepheid, IIT Hyderabad

- Coordinated astronomy outreach activities and observational events, engaging students in practical astronomy.
- Assisted with telescope setup and operations during public outreach and stargazing events.

Competitions Coordinator | Elan & nVision, IIT Hyderabad

- Coordinated the planning and execution of competitions during the institute's annual techno-cultural fest.
- Prepared event rulebooks and collaborated with teams to ensure smooth event operations.

Public Relations Coordinator | EBSB, IIT Hyderabad

- Contributed to organizing and promoting cultural festivals, encouraging student participation and collaboration.
- Prepared detailed event reports highlighting execution, engagement, and overall event impact.

PR & Multimedia Coordinator | MILAN 2025, IIT Hyderabad

- Coordinated with creative and organizing teams to develop and disseminate promotional content across digital platforms.
- Supported event coverage through photography, videography, and social media content, ensuring timely communication and visibility.

SKILLS

Programming Languages: C, Python, SQL

Libraries & Frameworks: NumPy, Pandas, Matplotlib, Scikit-learn, PyTorch, Transformers

Tools & Platforms: Overleaf, Jupyter Notebook, Google Colab, VS Code, Solid Edge

Soft Skills: Teamwork, Communication, Problem Solving, Event Management, Public Relations

RELEVANT COURSES

Computer Science:

Data Structures & Applications, Artificial Intelligence

Mathematics:

Calculus, Introduction to Probability, Introduction to Statistics, Elementary Linear Algebra, Differential Equations

Physics:

Machine Learning for Physical Sciences, Mathematical Physics, Advanced Mathematical Physics, Computational Physics, Analog Electronics, Basic Electric Circuits, Quantum Mechanics, Special Relativity, Electricity & Magnetism

Electrical Engineering:

Basic Electrical Engineering, Digital Circuits

PROJECTS

Transformer-Based Approaches for Structure-Based Drug Design | *link*

- Investigated transformer-based deep learning architectures for structure-based drug design and molecular interaction prediction.
- Studied attention mechanisms for modeling protein-ligand interactions and drug discovery workflows.
- Explored molecular representation learning using transformer models.

Numerical Solution of a Coupled Hyperbolic System Using the Lax-Friedrichs Method | *link*

Course Project | *Computational Physics*

- Implemented the Lax-Friedrichs finite difference scheme to solve coupled hyperbolic partial differential equations.
- Analyzed the stability, convergence, and numerical accuracy of the method under different initial conditions.
- Performed computational simulations to validate the numerical solutions.

Chaotic Dynamics in Three-Body Gravitational Systems Using the RK4 Method | *link*

Course Project | *Mathematical Physics*

- Simulated the motion of three gravitationally interacting bodies using the fourth-order Runge-Kutta (RK4) method.
- Investigated chaotic dynamics and sensitivity to initial conditions in nonlinear systems.
- Visualized orbital trajectories and analyzed long-term system evolution.

EXTRACURRICULAR

- Sky observation sessions and astrophotography through astronomy outreach programs.
- NSS Volunteer, actively participating in community service initiatives.
- Enjoy playing Badminton and carrom
