EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2028	7.90
NAVEEN PUBLIC SCHOOL VILLAGE NITHARI DELHI	Class XII (CBSE)	2024	90.80%
SWAMI KESHWANAND CONVENT SCHOOL SIKAR RAJ	Class X (CBSE)	2022	97.20%

SKILLS

Languages: Python, C/C++, JavaScript, SQL

AI/ML: Machine Learning, Time-Series Analysis, Predictive Maintenance, Anomaly Detection, Scikit-learn, PyTorch, LSTM, Random Forest, Isolation Forest, Autoencoder

Web: Node.js, Express.js, React.js, REST APIs, MVC

Databases: MongoDB, Mongoose, SQL

AI/LLMs: Groq API, Llama 3.3, Prompt Engineering

Security: Passport.js, JWT, Express Sessions, Role-Based Authorization

Tools: Linux/Ubuntu, Git, GitHub, Cloudinary, Render

CS Fundamentals: DSA, DBMS

PROJECTS

Python | Pandas | NumPy | Scikit-learn | PyTorch

IIoT Predictive Maintenance & Anomaly Detection

Key Features: Machine Failure Prediction - RUL Estimation - Time-Series Modeling - Anomaly Detection

Description:

- Developed an Industrial IoT ML pipeline using **AI4I 2020 and NASA C-MAPSS** sensor datasets for failure prediction and RUL estimation.
- Implemented **Random Forest classification** for machine-failure prediction and evaluated using **ROC-AUC, Precision, Recall, and F1-score**.
- Built a **PyTorch LSTM model** using rolling features and 30-cycle sequences for **Remaining Useful Life prediction**, evaluated with RMSE.
- Applied **Isolation Forest and Autoencoder** techniques for unsupervised **anomaly detection** using machine sensor data.

Node.js | Express.js | MongoDB | React.js | Passport.js | REST APIs | Groq Llama 3.3 | Cloudinary

HireHub - AI-Powered Applicant Tracking System (ATS)

Live Demo: https://hire-hub-oikh.onrender.com/

Key Features: AI Resume Screening - Applicant Tracking System (ATS) - Skill-Based Recommendations - Role-Based Access Control - Cloud Resume Storage - Automated Email Notifications - Admin Analytics

Description:

- Designed and developed a scalable full-stack Applicant Tracking System supporting recruiters, applicants, and administrators using Node.js, Express.js, MongoDB, and React.

- Built an AI-powered resume analysis pipeline using Groq Llama 3.3 that automatically evaluated resumes against job requirements and generated candidate scores.

- Designed an AI-driven recommendation engine matching candidate skills with relevant job opportunities.

- Implemented secure authentication using Passport.js with role-based access control, and integrated Cloudinary (storage) and Resend (email notifications).

- Developed analytics dashboards for monitoring users, job postings, platform activity, and backend performance.

RELEVANT COURSES

Mathematics: Calculus-I, Calculus-II, Probability and Random Variables, Elementary Linear Algebra, Differential Equations, Biostatistics,

Computer Science: Introduction to Programming, Artificial Intelligence, Big Data Biology and Biological Databases, R and Python for Biologists

POSITIONS OF RESPONSIBILITY

Head of Sponsorship | Milan, IIT Hyderabad (June 2026 - Present)

- Lead a **12-member Sponsorship team** for Milan, IIT Hyderabad's annual inter-hostel Sports, Tech, and Cultural Championship, attracting **6,000+ attendees**.
- Develop and execute sponsorship strategies by identifying prospective partners, conducting corporate outreach, and negotiating partnership opportunities.
- Coordinate with marketing, event management, and finance teams to ensure seamless sponsor onboarding and successful execution of sponsorship deliverables.

Coordinator | Finance and Consulting Club (FCC), IIT Hyderabad (June 2025 - April 2026)

- Coordinated workshops, competitions, and speaker sessions in **finance, consulting, and product management**, fostering student engagement and professional development.
- Collaborated with cross-functional teams to plan and execute club events, ensuring seamless operations and an enhanced participant experience.

EXTRACURRICULAR

Active participant in **cricket** and **badminton**, regularly competing in institute-level leagues at IIT Hyderabad.
