EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2028	8.27
Adichunchangiri PU College	Class XII (Karnataka School Examination and Assessment Board)	2024	95.83%
J S S Public School	Class X (Central Board of Secondary Education)	2022	96.00%

SCHOLASTIC ACHIEVEMENTS

- Secured **Runners-up** at **Gameathon 1.0 (FIFS)**, an All-India AI-powered sports analytics hackathon; received a prize of **7.5 Lakhs** and was felicitated at the **WAVES International Summit 2025, Mumbai**.
- Earned the **Expert** title on **Codeforces**, a leading competitive programming platform, with a **current rating of 1631**.
- Finished **61st in Optiver Trade-A-Thon** held on 23rd March 2026.

PROJECTS

MiniGit: Lightweight Version Control System | *Python, Git, File Systems* | *Github Link*

Software Systems Project

- Built a **Git-inspired version control system** from scratch supporting **repository initialization, staging, commits, branching, checkout, logging, and status** through a custom command-line interface.
- Designed a **content-addressable object storage system** using **SHA-1 hashing**, snapshot-based commits, and persistent metadata for efficient version tracking.
- Implemented **workspace, staging area (index), and repository synchronization** with a modular architecture, enabling accurate change detection and branch management.

Real-Time Vehicle Detection and Tracking | *Python, YOLOv8, DeepSORT, OpenCV* | *Github Link*

Computer Vision Project

- Developed a **real-time vehicle detection and tracking pipeline** using **YOLOv8** for object detection and **DeepSORT**, leveraging **Kalman Filter-based motion prediction** and data association for robust multi-object tracking.
- Engineered a **video analytics workflow** with confidence, size, and boundary filtering to improve detection accuracy while maintaining persistent IDs for cars, motorcycles, and buses.
- Built an end-to-end **computer vision pipeline** for frame-wise inference, unique vehicle counting, bounding-box visualization, and annotated video generation using **OpenCV**.

College ERP System | *React, Firebase, Firestore, Firebase Storage, Vercel, Git* | *Github Link*

Full-Stack Web Application

- Developed a **modular web-based ERP system** for educational institutions featuring **student, faculty, attendance, examination, fee, and timetable management** with a scalable React architecture.
- Implemented **role-based authentication and access control** using **Firebase Authentication** and **Cloud Firestore**, enabling secure workflows for administrators, faculty, parents, and students.
- Built end-to-end CRUD workflows with **Cloud Firestore** and **Firebase Storage**, and **deployed the application on Vercel** for seamless web accessibility and continuous updates.

AI-Driven Player Performance Prediction for Sports Analytics | *Python, Scikit-learn, Pandas, Docker* | *Github Link*

Gameathon 1.0 (FIFS)

- Engineered an **end-to-end machine learning pipeline** using **Random Forest Regression** to model player performance from historical batting, bowling, and match-level statistics.
- Developed a **custom weighted feature aggregation framework** integrating model predictions with domain-specific heuristics to optimize fantasy team selection under roster constraints.
- Automated **data ingestion, preprocessing, prediction, and optimal XI generation** across dynamic match datasets, and **containerized the complete inference pipeline using Docker** for reproducible competition deployment.

SKILLS

- **Programming Languages:** Python, C, Linux Shell Script, LaTex, Verilog, HTML, CSS
- **Frameworks and Libraries:** NumPy, Pandas, Matplotlib, Sklearn, React.
- **Tools:** Git, Docker, Firebase, Vercel, Jupyter Notebook, Linux

RELEVANT COURSES

- **Mathematics:** Probability, Matrix Theory, Random Processes, Intro to Statistics, Maths for EE, Differential equations.
- **Computer Science and Software:** Data Structures and Algorithms, Intro to C programming, Machine Learning, Scientific Programming for EE, Artificial Intelligence, Digital Systems.

POSITIONS OF RESPONSIBILITY

- **Internship Coordinator at OCS (Office of Career Services)**, assisting in pitching and coordinating with companies for recruitment.
- **Coordinator** in the **Production** and **Pronites** domains at **Elan & Vision**, contributing to the planning and execution of large-scale cultural and technical events.
- **Esports Head**, after serving as **Esports Core**, at **Glitch**, the gaming club of **IIT Hyderabad.**
- **Hostel Representative**, acting as the primary liaison between residents and the hostel admin.

EXTRACURRICULAR

- Active in **competitive programming** and **problem solving** on Codeforces, with a **current rating of 1631**.
- Represented **IIT Hyderabad in football**, earning selection among the **Inter-IIT Probables**.
- Competed in **KSCA Inter-District cricket tournaments** in the **Under-14** and **Under-16** categories.
