WORK EXPERIENCE

Business Growth Associate | SkillifyMe

- Spearheaded strategic growth for an EdTech platform generating **2.5L+** revenue, leading a 15-member cross-functional team across product, technology, and marketing to drive execution and scale operations.
- Synthesized insights from 500+ users, conducting market research, competitive benchmarking, and **SWOT** analyses and contributing to PRDs for product enhancements aimed at improving engagement and retention.
- Orchestrated growth initiatives impacting **500+** students, collaborating with **10+** stakeholders to drive GTM execution, strengthen adoption, and expand platform reach through strategic partnerships.

Strategic Planning Intern | Sports Department, IIT Hyderabad

- Assisted in strategic route planning and vehicle allocation for Inter IIT participants, optimizing arrival, event-day, and departure logistics to minimize transit time and avoid scheduling conflicts.
- Supported the vendor selection and tendering process for a **20L+** transport budget, evaluating proposals and negotiating terms to ensure cost-effective, reliable service partners.
- Contributed to contingency and resource planning frameworks, coordinating with cross-functional teams to build backup routing and vendor options for high-risk logistics scenarios.

PROJECTS AND CERTIFICATIONS

SkillifyMe Student Insights & Opportunity Dashboard

Engineered a SQL analytics layer and Streamlit dashboard on a simulated 10,000-student dataset, uncovering pain-point clusters through self-join co-occurrence analysis and a four-stage intent funnel. Converted need-versus-intent quadrants into segment-level priority scores, driving recommendations to sharpen targeting and boost enrollment conversion.

AI-Powered Bank Customer Segmentation & Personalized Offer Engine

Built a KMeans-based customer segmentation pipeline in Python, identifying 4 actionable banking personas. Developed a Next-Best-Offer recommendation engine with an interactive Streamlit app for real-time offer personalization. Designed Power BI dashboards for segment insights, validated via A/B testing with ~30-40% conversion lift.

Zepto E-Commerce Inventory Analytics

Designed a SQL inventory database and cleaned 30K+ SKU records, uncovering pricing, discount, and stock-out patterns across product categories. Identified high-demand out-of-stock SKUs and low-discount, high-MRP products, and built profitability metrics (price-per-gram, stock-out days) to guide inventory and pricing decisions.

AI for Product Managers | Microsoft

Completed Microsoft's AI Product Management program, applying product strategy methods to analyze real-world business challenges and strengthen decision-making, stakeholder communication, and AI-driven problem-solving skills.
