EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2026	7.76
Sri Chaitanya Junior College	Class XII (SSC)	2023	93.60%
Sri Chaitanya High School , Punadipadu , Krishna District	Class X (SSC)	2021	10.00%

SKILLS

Languages: Python, C++, SQL

AI/ML Concepts: Supervised Learning, Unsupervised Learning, Model Evaluation, Feature Engineering, Deep Learning, Embeddings, NLP, Transformers, LLMs, Prompt Engineering, RAG, AI Agents

Frameworks & Libraries: Numpy, Pandas, Scikit-learn, TensorFlow, Hugging Face, LangChain, LangGraph, ChromaDB

Databases: SQLite

Tools & Platforms: Git, GitHub, VS Code, Streamlit, FastAPI

AI Safety: Guardrails AI

PROJECTS

AstraGPT -- Agentic AI Chatbot with RAG | *Github*

- Developed an agentic AI chatbot using Gemini and LangGraph with conversational memory, streaming responses, and tool-based web search.
- Designed and implemented a multi-format RAG pipeline using ChromaDB for document ingestion, embedding-based retrieval, and context-aware question answering.
- Integrated Tavily web search, FastAPI backend services, and SQLite conversation persistence, and deployed the application on Render.

Guardrails-Secured RAG Chatbot | *Github*

- Developed a security-focused RAG chatbot using LangChain, Groq, and Hugging Face embeddings, enabling context-aware responses grounded in retrieved knowledge.
- Implemented Guardrails AI validators for topic validation, prompt-injection and jailbreak detection, generated-output validation, and automated handling of invalid responses.
- Added context-grounding checks and output correction mechanisms to reduce unsupported responses and improve the reliability and safety of the RAG pipeline.

Multi-Agent Research System | *Github*

- Developed a multi-agent AI research system using LangChain and Groq, with specialized Search, Reader, Writer, and Critic agents for automated end-to-end research.
- Integrated Tavily web search and web-content extraction tools to gather relevant information, process online sources, and synthesize findings into structured research content.
- Built an interactive Streamlit application that automates research report generation and uses an AI-powered Critic agent to evaluate the quality and completeness of generated reports.

Intelligent YouTube Content Idea Generator | *Github*

- Developed an AI-powered content research system using SerpAPI and YouTube Data API to analyze Google Trends, trending topics, keywords, and relevant high-performing reference videos.
- Integrated Groq LLMs to generate audience-specific YouTube content ideas by combining real-time trend data and video research as contextual inputs.
- Built an end-to-end FastAPI and Streamlit application that provides an interactive workflow for automated content research, trend analysis, and AI-powered video idea generation.

RELEVANT COURSES

Data Structures and Algorithms (DSA)

Mathematics Courses: Calculus I, Calculus II, Linear Algebra, Differential Equations, Probability, Statistics, Transform Techniques, Complex Variables

SCHOLASTIC ACHIEVEMENTS

- Kotak Kanya Scholarship

- Awarded for academic excellence and consistent scholastic performance during undergraduate studies. A nationally recognized merit-based scholarship initiative supported by the Kotak Mahindra Group to encourage academic achievement.

EXTRACURRICULAR

National Service Scheme (NSS) Volunteer - IIT Hyderabad Participated in community service and social awareness initiatives, contributing to volunteer-led programs and outreach activities.

POSITION OF RESPONSIBILITY

Hospitality Coordinator - Mechanical Department Day, IIT Hyderabad *2025-2026*

Coordinated guest management and hospitality operations, working with organizing teams to ensure smooth execution of departmental events

CERTIFICATIONS

Google Student Upskilling Launchpad Program -- Completed Google India's tech upskilling program focused on digital, technical, and career enhancement skills.

Placement Readiness & Career Impact Skills - Certified by Define Career (Jun 2025).

Completed C Programming Language course on Udemy.
