EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2028	8.22
SHIV JYOTI INT SCHOOL RANPUR LADPURA KOTA RAJ	Class XII (CBSE)	2024	94.60%
BSN ACADEMY NANTA (KUNARI) LADPURA KOTA RJ	Class X (CBSE)	2022	95.00%

SKILLS

- **Programming Languages**: C, C++, Python,SQL
- **ML Frameworks/Libraries**: NumPy, Pandas, Matplotlib, Seaborn, Plotly, Scikit-learn.
- **Tools**: Git, GitHub, SolidEdge
- **Integrated Development Environments**: Visual Studio Code, Jupyter Notebook, Google Colab.
- **Concepts**: Data Structures and Algorithms.
- **Soft Skills**: Communication, Team Management, Critical Thinking.

RELEVANT COURSES

Mathematics Electives: Calculus, Elementary Linear Algebra, Differential Equations, Transform Techniques, Probability and Statistics

AI/ML: Machine Learning Specialisation, Supervised Machine Learning, Unsupervised Machine Learning, Advanced Learning Algorithms

Computer Science: Introduction to Programming, Data Structures and Algorithms

PROJECTS

Dynamic Pricing and Ride Cost Prediction

- Analyzed ride-sharing data using Pandas and Plotly to explore cost distributions and patterns across vehicle types, locations, and time of booking
- Built a demand-supply based dynamic pricing model using demand and supply multipliers to adjust ride costs in real-time, calculating profit margins for pricing optimization
- Trained a Random Forest Regressor to predict ride costs from features like rider count, location, and ride duration, evaluated using RMSE and R^2 Score with actual vs predicted comparisons.

Credit Card Fraud Detection Model:

- Built a classification model to detect fraudulent transactions using Logistic Regression, Decision Tree, Random Forest, and KNN on real-world credit card data.
- Achieved **93%** accuracy with Logistic Regression and RF.
- Evaluated models using precision, recall, F1 score, and confusion matrix.

Weather Prediction and Advisory System

- Developed a forecasting system using Logistic Regression, XGBoost, and Decision Tree Classifier for accurate rainfall predictions, applying advanced model evaluation and feature selection techniques.
- Created interactive dashboards for effective weather data visualization, enabling clear, actionable insights for decisionmaking.
- **Business Value**: Provides precise weather forecasts, enhancing operational efficiency and strategic planning in sectors like agriculture and logistics.

POSITIONS OF RESPONSIBILITY

Competitions Head, Elan & nVision, IIT Hyderabad

- Leading a team of **12** coordinators to plan and execute competitions across Cultural, Literary, and Technical domains for IITH's annual techno-cultural fest with **50,000+ footfall**, coordinating offline preliminary rounds across **3 cities**, managing participant registrations, college outreach, judge sourcing, rulebook creation, and company outreach for sponsorships.

Informals Coordinator, Elan & nVision, IIT Hyderabad

- Planned and executed informal events like Nexus and Mystery Room, reached out to vendors and companies for partnerships and stalls, handled registrations and logistics, and managed a team of **10+** volunteers at IITH's annual fest with **50,000+ attendees**

Operations Manager, Entrepreneurship Cell, IIT Hyderabad

- Handled logistics and operations for all E-Cell events, managed speaker hospitality, led a team of **20+** assistant managers, and ensured smooth execution across every event organized by the Entrepreneurship Cell at IIT Hyderabad

Internship Coordinator , Office of Career Services, IIT Hyderabad

- Managing company outreach, acting as point of contact for assigned recruiters, and coordinating recruiting activities to facilitate campus internships and placements at IIT Hyderabad

EXTRACURRICULAR

- Active volunteer in National Service Scheme.
- Completed Abacus training during school years.
- Recreational interest in drawing and sketching.
