EDUCATION

Institution	Degree / Board	Passing Year	Score / CGPA
Indian Institute of Technology Hyderabad	B.Tech	2027	7.51
Sri Chaitanya IIT Academy	Class XII (Telangana State Board Of Intermediate Education)	2023	96.30%
Sri Chaitanya School	Class X (State Board of Telangana (SCC))	2021	10.00%

WORK EXPERIENCE

MyHealth Journal -- AI-Powered Healthcare Platform

Software Trainee | *360 Technology* |

- **Conceptualized and shipped** a **full stack AI-powered healthcare platform** using **React, .NET and Python Flask** -- integrating **AI document classification, automated medicine extraction, LLM health summarization and AI chat** based on patient's own data -- reducing manual data entry by **100%** across **3 user types**
- **Designed unique product features** including a **QR code based patient identity system** with **doctor access request and patient approval flow** -- giving patients **full control over their medical data** while enabling doctors and providers to **discover, verify and access patient records securely**
- **Owned end-to-end mobile product experience** for **3 separate dashboards** covering **15+ features** -- vitals tracking, emergency SOS, real-time notifications, mandatory photo onboarding, provider report upload, doctor feedback on reports and AI health insights -- delivering a **seamless and secure healthcare experience**

PROJECTS

QuickBite AI -- AI-Powered Food Search Engine

React · Node.js/Express · Google Gemini API · Independent Project

- **Built** an AI-powered natural-language search engine using React, Node.js, and Google's Gemini API to parse free-text queries into structured JSON filters, achieving **correct multi-constraint extraction on ~80% of a 24-query eval set,** with remaining failures traced to specific, documented causes.
- **Designed** guardrail logic for zero-result and negation edge cases using progressive filter-relaxation and honesty checks, **eliminating a critical bug where negated queries returned the entire unfiltered dataset.**
- **Engineered** a transparency layer displaying the AI's parsed filters and unmapped terms back to the user, **directly differentiating the product from Zomato and Swiggy's opaque, black-box AI search.**

QuickBite AI -- AI Search Product Case Study

Independent Product + Technical Project · Competitive Analysis, Evals, UX Design

- **Identified** a specific, verifiable gap in Zomato/Swiggy's AI search offerings through competitive research into their gated and conversational AI features, **defining a differentiated product concept around open, transparent, structured multi-filter search.**
- **Designed and ran** a systematic evaluation framework covering 24 natural-language test queries, including multilingual and adversarial edge cases, **uncovering 5 real failure modes that directly informed 4 shipped product guardrails.**
- **Owned** the full AI-product lifecycle end-to-end -- problem definition, competitive positioning, architecture, evals, and UI design -- **producing a fully documented, GitHub-hosted case study demonstrating product judgment beyond pure implementation.**

Maven Fuzzy Factory -- SQL Funnel & Conversion Analysis

- **Analyzed** 473K+ website sessions and 32K orders **using** SQL (CTEs, window functions, CASE WHEN) to build a full conversion funnel, **uncovering** that only 20% of visitors reached the cart stage -- the single largest drop-off point in the customer journey.

- **Identified** a 3x conversion gap between desktop and mobile users (8.50% vs 3.09%) **by** segmenting funnel performance across device type and traffic source using window functions (RANK, LAG), **revealing** that mobile underperformance started as early as the browsing stage, not just checkout.
- **Evaluated** a landing page A/B test (/home vs /lander-1) **using** SQL-based conversion rate analysis, **discovering** the original page outperformed the redesigned version (5.51% vs 4.54%) -- delivering a data-backed recommendation against rolling out the redesign without further testing.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript (ES6+), SQL, C#, HTML/CSS
- **AI/ML & Computer Vision:** TensorFlow, Keras, CNN, U-Net, Semantic Segmentation, Transfer Learning, Image Preprocessing, OpenCV, Scikit-learn
- **LLM & Generative AI:** LLM API Integration (OpenAI, Google Gemini), Prompt Engineering, Structured Output / JSON Schema Design, Document Intelligence
- **Data & Analytics:** SQL (MySQL, Window Functions), Exploratory Data Analysis (EDA), Excel, Power BI, Pandas, NumPy, Matplotlib, Funnel Analysis, User Segmentation, A/B Testing
- **Web & Backend:** React.js, Vite, Tailwind CSS, Node.js, Express.js, Flask, .NET 8, REST APIs
- **Product & Design:** User Research, User Personas, Wireframing, User Flows, Mobile-First UI/UX, Competitive Analysis, Feature Prioritization, Product Roadmap, Agile, Eval/Failure-Mode Framework Design
- **Tools:** Git, GitHub, Postman, Figma,Fusion 360,Google Stitch, VS Code, Jupyter Notebook, Google Colab, npm
- **Soft Skills:** Team Management, Decision-Making, Communication, Adaptability, Ownership

RELEVANT COURSES

Computer Science: Introduction to Programming, Data Structures & Applications, Algorithms and Data Structure Lab, Introduction to Modern AI

Mathematics & Statistics: Calculus-I, Calculus-II, Elementary Linear Algebra, Introduction to Statistics, Probability and Random Variables, Probability and Random Processes

Product & Design: Marketing Research, Product Design and Prototype, Biofabrication

Online Courses: Generative AI Powered Data Analytics (Cisco), Introduction to Data Science (Cisco), Power BI Essential Training (LinkedIn Learning)

POSITIONS OF RESPONSIBILITY

Head, Shuffle (Official Dance Club) |

Lead the institute's dance club of 25 members, organizing campus performances and off-campus flash mobs. Train the team with professional choreographers and manage choreography, coordination, and logistics for the Inter-IIT Cultural Meet contingent representing IIT Hyderabad at the national level.

Media and PR Coordinator, Milan (Inter-Hostel Championship) |

Managed media outreach and publicity campaigns for Milan, working with student representatives across Hyderabad colleges to boost participation. Secured collaborations with external organizations and led social media coverage and post-event promotions, increasing visibility and engagement.

Media and PR Coordinator, National Service Scheme (NSS) |

Led event coverage, publicity, and media outreach for NSS activities, and designed the club's magazine and merchandise. Partnered with NGOs on social initiatives and organized guest talks and awareness sessions with prominent speakers on campus.

EXTRACURRICULAR

- Led IIT Hyderabad's dance team as **Club Head (Shuffle)** at **Inter IIT Cultural Meet 8.0** and performed as a **core team member** at **Inter IIT Cultural Meet 7.0**, a national meet where all IITs compete in cultural events.
- Skilled in **video editing**, **photography**, and **visual content creation** for events, promotions, and social media.
